

Setting TapeTrack License

Overview

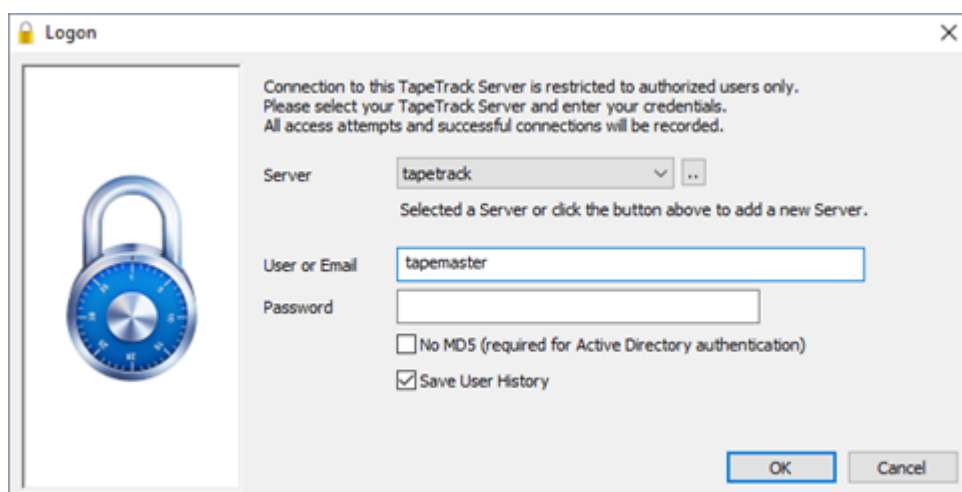

When initially installed, the TapeTrack Framework Server will allow up to 100 tape volumes using a free license. To add more than 100 volumes or operate with more than 100 volumes you will need upgrade your TapeTrack license from the free license key to either a [temporary license, 90 day trial license](#) or [permanent license](#) key.

Temporary License

A temporary license key will allow you to operate the TapeTrack Software without restriction, but this mode of licensing is reserved for those evaluating the TapeTrack Software or those needing a license in an emergency situation. Temporary licenses are restricted to less than two weeks.

To obtain a temporary license:

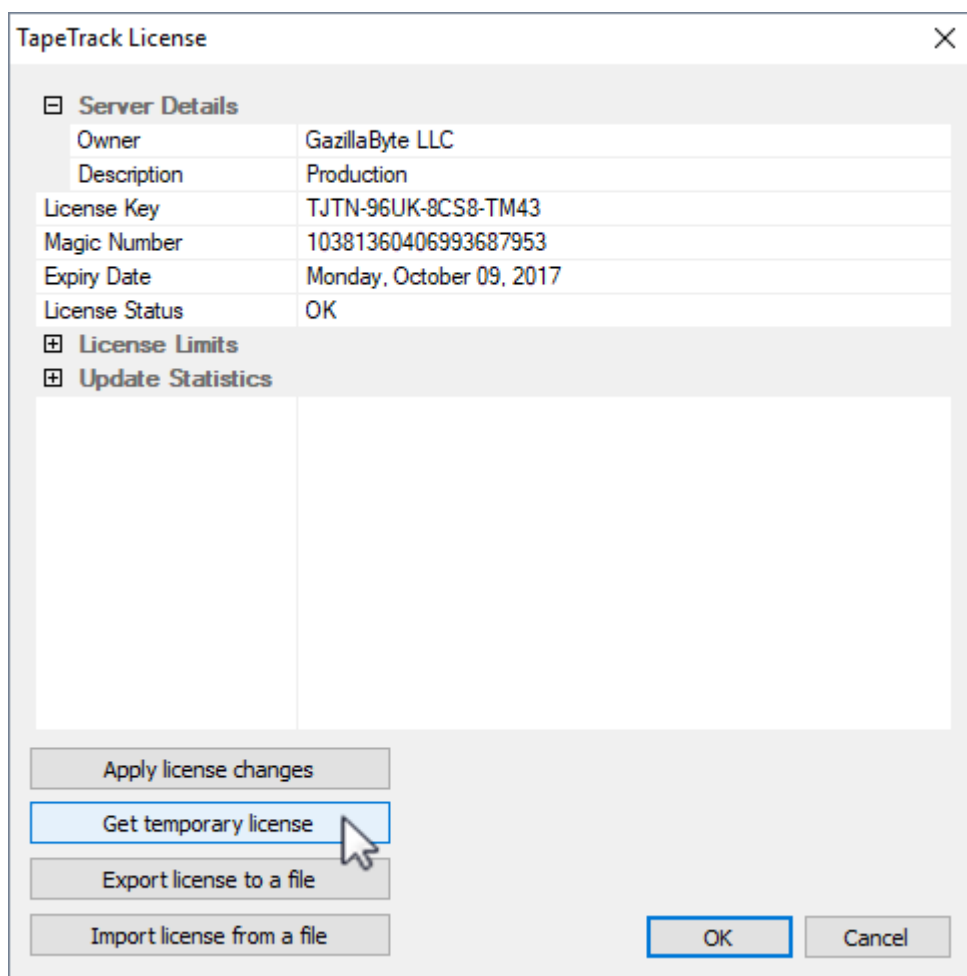

1. Open TapeTrack TapeMaster and login with the user name **tapemaster** (case sensitive) and leave password blank (or use your password if it has been changed).

2. From the menu click Help → Framework Server Licensing

3. click Get temporary license and OK

4. Press **F5** while in the customer tree window to refresh new information. Your **License Status** should now display **OK** and your expiry date should now be approximately 12 days from now.

90 Day Trial License

To Upgrade your free license to a full evaluation license:

Open TapeTrack TapeMaster and login with the user name **tapemaster** (case sensitive) and leave password blank (or use your password if it has been changed).

From the menu click Help → Framework Server Licensing

In the TapeTrack License window change the default values to your preferred details:

Server Details

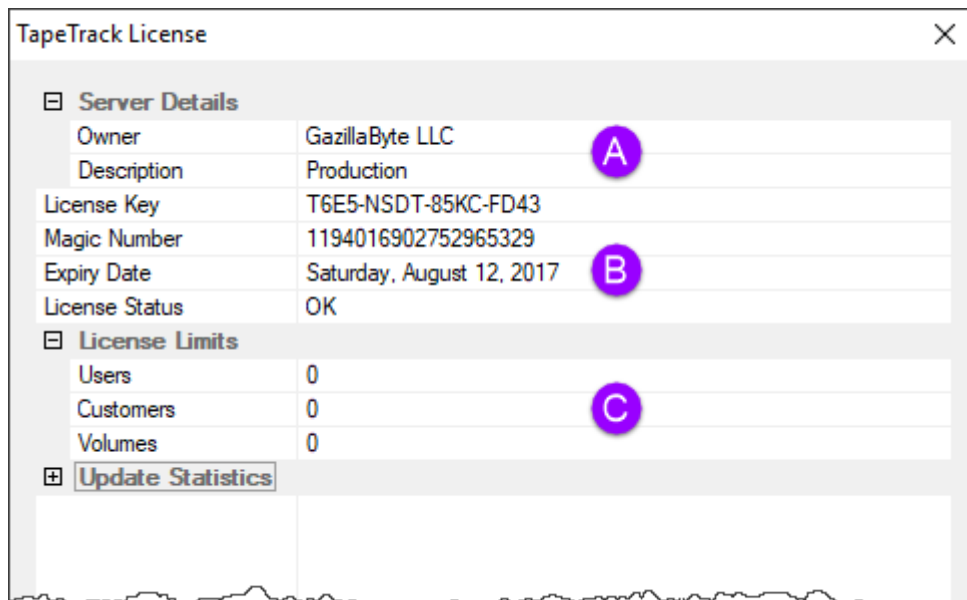

Change Owner (A) from ACME Corp to your company name (e.g. **GazillaByte**)

Change description (A) value to something more relevant (e.g. **Production**)

Set Expiry Date (B) to new expiry (e.g. 90 days from today)

License Limits

Change Volumes (C) to desired number (0 = unlimited)

The screenshot shows a 'TapeTrack License' window with a close button (X) in the top right corner. It contains two main sections: 'Server Details' and 'License Limits'.
