

Temporary License

A temporary license key will allow you to operate the TapeTrack Software without restriction, but this mode of licensing is reserved for those evaluating the TapeTrack Software or those needing a license in an emergency situation.

To get a temporary license you must have TapeMaster running on a machine with Internet access.

For installation on a computer where Internet access cannot be provided, you will need to contact the [Help Desk](#) to provide you with a Software Key.

Temporary licenses are restricted to less than two weeks.

While logged to in TapeMaster as [tapemaster](#), or [user-ID with tapemaster rights](#)

1. From the menu click Help → Framework Server Licensing

The screenshot shows the TapeTrack TapeMaster™ (GazillaByte) application window. The interface includes a menu bar (File, Administration, Favorites, Tools, View, Help), a Customer Filter, and a navigation tree on the left with nodes like US00 - United State, US01 - New York, US02 - Los Angel, CONT - Conta, LTO - LTO Car, and US03 - North Car. The main area displays a 'Volumes' table for 'Los Angeles Data Center LTO Cartridge' with columns for ID, Current Location, Target Location, Next Move, and Description. Below the table is a 'Total Items' count of 1,587 and a 'Repositories' section with icons for Gemtrac, Library, Transport, and Offsite Vault. A status bar at the bottom indicates 'Connection 127.0.0.1 uses AES 256 bit encryption'.

 If the menu option **Framework Server Licensing** is grayed out and inaccessible, you do not have sufficient privileges (tapemaster rights) to alter the software license

2. Click Get temporary license and OK

Your **License Status** should now display **OK** and your expiry date should now be approximately 12 days from now.

Older versions may require you to press F5 while in the [customer tree](#) window to refresh new information.
