2025/12/01 10:09 1/4 Temporary License

Temporary License

A temporary license key will allow you to operate the TapeTrack Software without restriction, but this mode of licensing is reserved for those evaluating the TapeTrack Software or those needing a license in an emergency situation.

To get a temporary license you must have TapeMaster running on a machine with Internet access.

For installation on a computer where Internet access cannot be provided, you will need to contact the Help Desk to provide you with a Software Key.

Temporary licenses are restricted to less than two weeks.

While logged to in TapeMaster as tapemaster, or user-ID with tapemaster rights

1. From the menu click Help → Framework Server Licensing

If the menu option **Framework Server Licensing** is grayed out and inaccessible, you do not have sufficient privileges (tapemaster rights) to alter the software license

2. Click Get temporary license and OK
