

Volume Global View

Volume Global View allows you to view and/or search [volumes](#) across all [customers](#) and [media](#) types within the one report.

To open **Volume Global View** select from the main menu Tools → Volume Global View.

The **Global View Scope** window opens with wildcard (*) values for each search field by default which will include every volume within TapeTrack in the report.

The output results can be focused at this stage if a more refined report is preferred by using [String Filters](#) on the Customer ID or Description field and/or the Media ID or Description field.

Global View Scope ✕

You may now select a list scope.

It is not essential to set a scope, but if you only require a specific scope the list process may be faster.

<input type="checkbox"/> Customer	
ID	US01
Description	*
<input type="checkbox"/> Media Type	
ID	LTO
Description	*

ID
Media-ID filter

Click OK to continue to the **Volume Global View**.

The left of the window displays:

- **Statistics**
 - Customer Total: Number of Customer ID's
 - Media Type Total: Number of unique Media types (Each Customers LTO media type counted as one type).
 - Repository Total: Number or unique Repositories (Each Customers OFFS repository type counted as one type).
 - Volume Total: Number of volumes across all Customer ID's.
- **Customer Subtotals:** Total number of volumes per Customer ID.
- **Media Subtotals:** Volume subtotals grouped by Media type.
- **Repository Subtotals:** Volume subtotals grouped by Repository type.
