

# Volume Global View

Volume Global View allows you to view and/or search [volumes](#) across all [customers](#) and [media](#) types within the one report.

To open **Volume Global View** select from the main menu Tools → Volume Global View.

The **Global View Scope** window opens with wildcard (\*) values for each search field by default which will include every volume within TapeTrack in the report.

The output results can be focused at this stage if a more refined report is preferred by using [String Filters](#) on the Customer ID or Description field and/or the Media ID or Description field.

Click OK to continue to the **Volume Global View**.

The left of the window displays:

- **Statistics**
  - Customer Total: Number of Customer ID's
  - Media Type Total: Number of unique Media types (Each Customers LTO media type counted as one type).
  - Repository Total: Number or unique Repositories (Each Customers OFFS repository type counted as one type).
  - Volume Total: Number of volumes across all Customer ID's.
- **Customer Subtotals:** Total number of volumes per Customer ID.
- **Media Subtotals:** Volume subtotals grouped by Media type.
- **Repository Subtotals:** Volume subtotals grouped by Repository type.

The right of the widow displays the:

- Volume ID
- Description
- Customer ID
- Customer Description
- Media ID
- Media Description
- Repository ID
- Repository Description
- Flags
- Next Move Date
- Last Move Date
- Expiry Date
- Last Write Date

## Export

To export results from the Volume Global View, select the required volumes and right click Export. Then select the output format from:

- Comma Delimited File (CSV)
- Microsoft Excel
- Text file
- XML File

Click **Select All** if you want to select all volumes for export. By default the **Open file when export is complete** is checked, uncheck if you do not want the file to open on export.

Click **OK** to export or **Cancel** to abort the process.

Click the X in the top right corner to exit.
