

90 Day Trial License

A 90 day trial license allows a fully functional installation of TapeTrack to evaluate the software to ensure it is the correct tool to manage your backup volumes.

The process of upgrading to a 90 day trial license involves:

- Altering the license values through TapeMaster
- Exporting the updated license file to GazillaByte to have a new license key cut
- Installing the new license config file (when received) containing your new license key.

To Upgrade your free license to a 90 day trial license:

While logged to in TapeMaster as [tapemaster](#), or [user-ID with tapemaster rights](#)

From the menu click Help → Framework Server Licensing

If the menu option **Framework Server Licensing** is grayed out and inaccessible, you do not have sufficient privileges (tapemaster rights) to alter the software license

Update License Details

In the TapeTrack License window change the default values to your preferred details:

Server Details

Change Owner from ACME Corp to your company name (e.g. **GazillaByte LLC**)

Change description value to something more relevant (e.g. **Production**)

Set Expiry Date to new expiry (e.g. 90 days from today)

Set License limits if required, 0 = unlimited (e.g. Volumes limited to 10,000)

The screenshot shows the 'TapeTrack License' window with the 'Server Details' section expanded. The 'Description' field is highlighted with a mouse cursor. The 'License Limits' and 'Update Statistics' sections are collapsed. At the bottom, there are buttons for 'Apply license changes', 'Get temporary license', 'Export license to a file', 'Import license from a file', 'OK', and 'Cancel'.

Exporting License

Once all changes have been made, click **Apply license changes** and **Export license to a file** to export updated license file with a known name (e.g. 90_day_license_export.cfg) and location.

The screenshot shows the 'TapeTrack License' dialog box. It has a tree view on the left with three expandable sections: 'Server Details', 'License Limits', and 'Update Statistics'. The 'Server Details' section is expanded, showing a table with the following information:

Server Details	
Owner	GazillaByte
Description	Production
License Key	C8JT-44C4-2N4D-JM47
Magic Number	1194019728839244693
Expiry Date	Wednesday, June 30, 2021
License Status	Not-OK

The 'License Limits' section is also expanded, showing a table with the following information:

License Limits	
Users	0
Customers	0
Volumes	10000

The 'Update Statistics' section is expanded but empty. At the bottom of the dialog, there are four buttons: 'Apply license changes', 'Get temporary license', 'Export license to a file', and 'Import license from a file'. To the right of these buttons are 'OK' and 'Cancel' buttons.

Check the information in the config file (90_day_license_export.cfg) by opening in Notepad or similar text editor and check all information has been updated and is correct. If it is not correct, delete the file (do not edit file) and repeat the above steps with correct information.

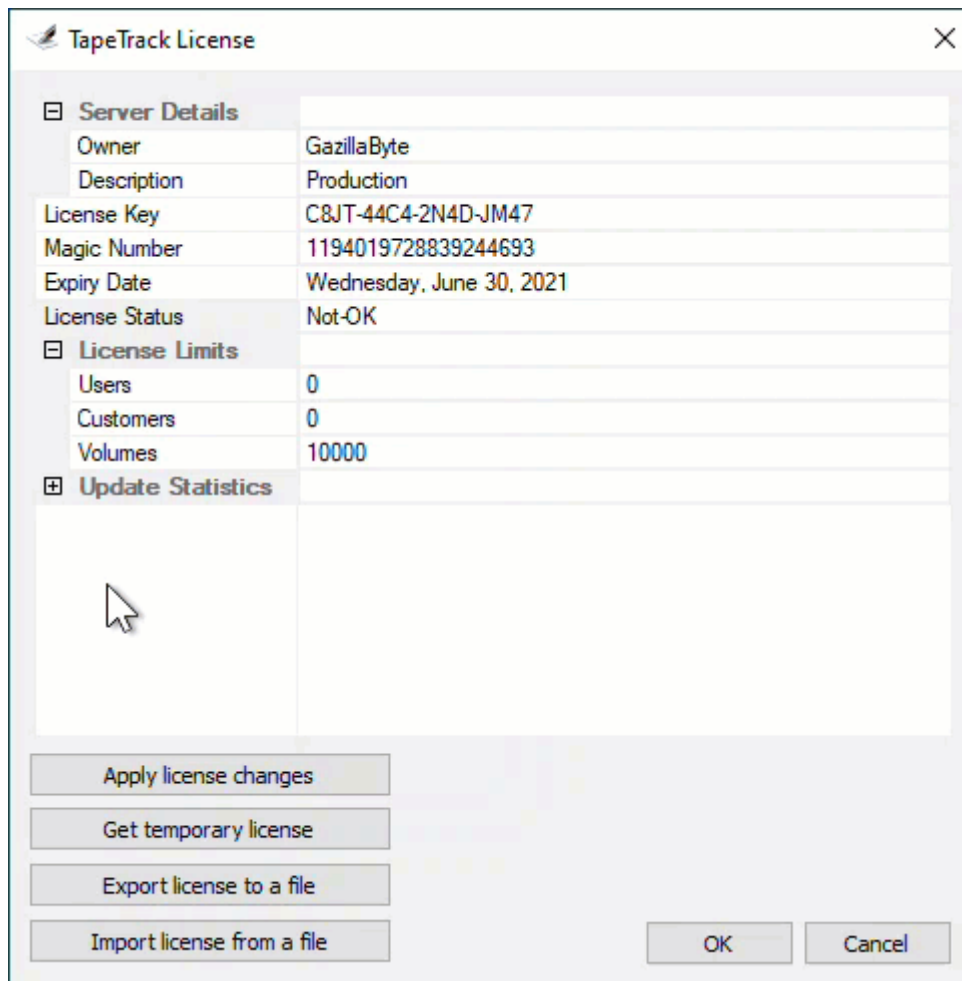

```
license :
{
  owner = "GazillaByte";
  description = "Production";
  key = "C8JT-44C4-2N4D-JM47";
  magic_number = "1194019728839244693";
  expiry = "Jun 30 2021";
  limits :
  {
    users = 0;
    customers = 0;
    volumes = 10000;
  };
};
```

Enable Temporary License

From the TapeTrack License window, click on Get Temporary License to temporarily extend the expiry date until you install the new license key. The License Status should now display OK.

Click OK to close the TapeTrack License window.
