

# 90 Day Trial License

A 90 day trial license allows a fully functional installation of TapeTrack to evaluate the software to ensure it is the correct tool to manage your backup volumes.

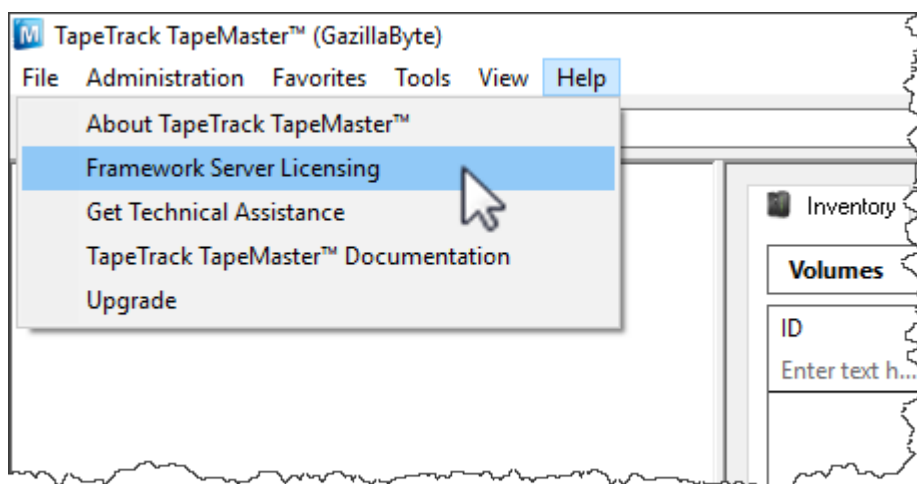

The process of upgrading to a 90 day trial license involves:

- Altering the license values through TapeMaster
- Exporting the updated license file to GazillaByte to have a new license key cut
- Installing the new license config file (when received) containing your new license key.

To Upgrade your free license to a 90 day trial license:

While logged to in TapeMaster as [tapemaster](#), or [user-ID with tapemaster rights](#)

From the menu click Help → Framework Server Licensing

If the menu option **Framework Server Licensing** is grayed out and inaccessible, you do not have sufficient privileges (tapemaster rights) to alter the software license

In the TapeTrack License window change the default values to your preferred details:

## Server Details

Change Owner (A) from ACME Corp to your company name (e.g. **GazillaByte LLC**)

Change description (A) value to something more relevant (e.g. **Production**)

Set Expiry Date (B) to new expiry (e.g. 90 days from today)

## License Limits

Change Volumes (C) to desired number (0 = unlimited)

The screenshot shows the 'TapeTrack License' window with a close button (X) in the top right corner. It contains two main sections: 'Server Details' and 'License Limits'. The 'Server Details' section includes fields for Owner, Description, License Key, Magic Number, Expiry Date, and License Status. The 'License Limits' section includes fields for Users, Customers, and Volumes. A purple circle labeled 'A' is next to the Description field, a purple circle labeled 'B' is next to the Expiry Date field, and a purple circle labeled 'C' is next to the Volumes field. There is also a purple circle labeled 'A' next to the Owner field.

Server Details	
Owner	GazillaByte LLC
Description	Production
License Key	T6E5-NSDT-85KC-FD43
Magic Number	1194016902752965329
Expiry Date	Saturday, August 12, 2017
License Status	OK

License Limits	
Users	0
Customers	0
Volumes	0

Update Statistics

## Exporting License

Once all changes have been made, click **Apply** license changes and **Export license** to a file to export updated license file with a known name (e.g. license\_export.cfg) and location.

Check the information in the config file (license\_export.cfg) by opening in Notepad or similar text editor and check all information has been updated and is correct. If it is not correct, delete the file and repeat the above steps with correct information.

The screenshot shows the 'license\_export.cfg - Notepad' window. The menu bar includes File, Edit, Format, View, and Help. The content of the file is as follows:

```
license :
{
  owner = "GazillaByte LLC";
  description = "Production";
  key = "T6E5-NSDT-85KC-FD43";
  magic_number = "1194016902752965329";
  expiry = "Aug 12 2017";
  limits :
  {
    users = 0;
    customers = 0;
    volumes = 0;
  };
};
```

From the TapeTrack License window, click on **Get Temporary License** to temporarily extend the expiry date until you install the new license key. The **License Status** should now display OK.

Click OK to close the TapeTrack License window.

Forward the exported license file to [support@gazillabyte.com](mailto:support@gazillabyte.com) with a subject indicating that you require a new license key. Once a new key has been cut you will receive a new license config file with instructions for importation.
