

# Date Aging - Last Mount

Displays a table and bar graph of selected [Volumes](#) last mount date and time.

## Selecting Volumes for Display

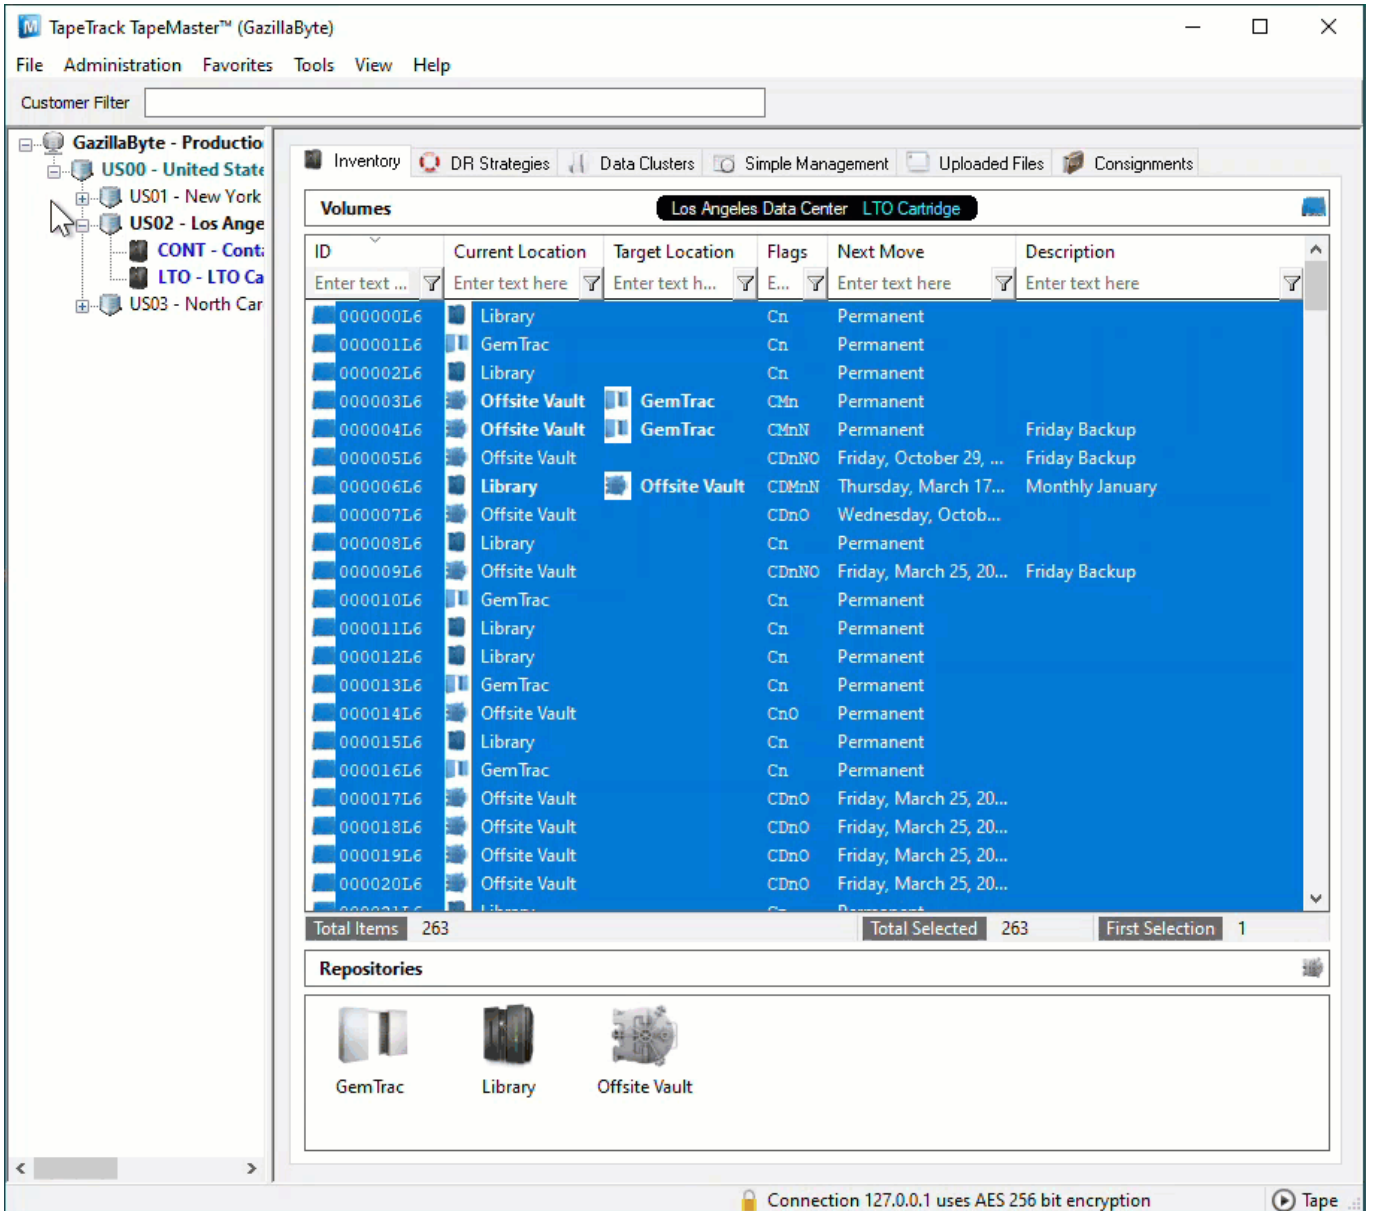

Select all [Volumes](#) by right-clicking in the Inventory window and select **Select→All**, or using **shift+click** and/or **control+click** select the range of [Volumes](#) required.

The screenshot shows the TapeTrack TapeMaster software interface. The main window displays a table of volumes under the heading "Los Angeles Data Center - LTO Cartridge". The table has the following columns: ID, Current Location, Target Location, Flags, Next Move, and Description. The table contains 20 rows of data. Below the table, there are summary statistics: Total Items: 263, Total Selected: 1, and First Selection: 1. At the bottom, there is a "Repositories" section with icons for GemTrac, Library, and Offsite Vault. The status bar at the bottom indicates "Connection 127.0.0.1 uses AES 256 bit encryption" and a "Tape" icon.

| ID       | Current Location | Target Location | Flags | Next Move               | Description     |
|----------|------------------|-----------------|-------|-------------------------|-----------------|
| 000001L6 | Library          |                 | Cn    | Permanent               |                 |
| 000001L6 | GemTrac          |                 | Cn    | Permanent               |                 |

## Display Last Mount

Right-click the selected [Volumes](#) and click **Reports→Date Aging→Last Mount Time**.

Volumes and associated information can be reordered by Volume-ID, Date or Days since the last fail by clicking on column headings. Clicking on the same heading will change the displayed order between ascending and descending order.

## Right Click Menu

Right clicking on the left window will present a menu of extra functions:

- Properties: Opens [Volume Properties](#), if multiple [Volumes](#) are selected [Volume Properties](#) will open sequentially for each one.
- Copy Column
  - Volume - ID: Copies selected [Volume-ID's](#) column values to Windows Clipboard.
  - Date: Copies selected [Volume-ID's](#) Dates column values to Windows Clipboard.
  - Days: Copies selected [Volume-ID's](#) Days column values to Windows Clipboard.
- Count Unique Values
  - Volume - ID: Counts unique selected [Volume-ID's](#) column values and displays them in a Pie Chart and table.
  - Date: Counts unique selected Dates column values and displays them in a Pie Chart and table.
  - Days: Counts unique selected Days column values and displays them in a Pie Chart and table.
- Export: Opens Export window to export selected [Volume-ID's](#) to file.
- Filters
  - Clear All
  - Restore
  - Save
- Print: Prints selected [Volumes](#) to PDF.

- **Select**
  - **All**: Selects all **Volumes**.
  - **Invert**: Inverts **Volume** selection.
  - **Random**: Opens dialog to select a number of random **Volumes** (input number or percentage to be selected)
- **View**
  - **Icon**: Displays list in Icon format.
  - **List**: Displays **Volume-ID's** in List format.
