

Attribute Table

The Attribute table displays **Volume** Attribute data in a table format and 3D pie chart. **Volumes** are displayed in **Volume-ID** order by default.

Selecting Volumes for Display

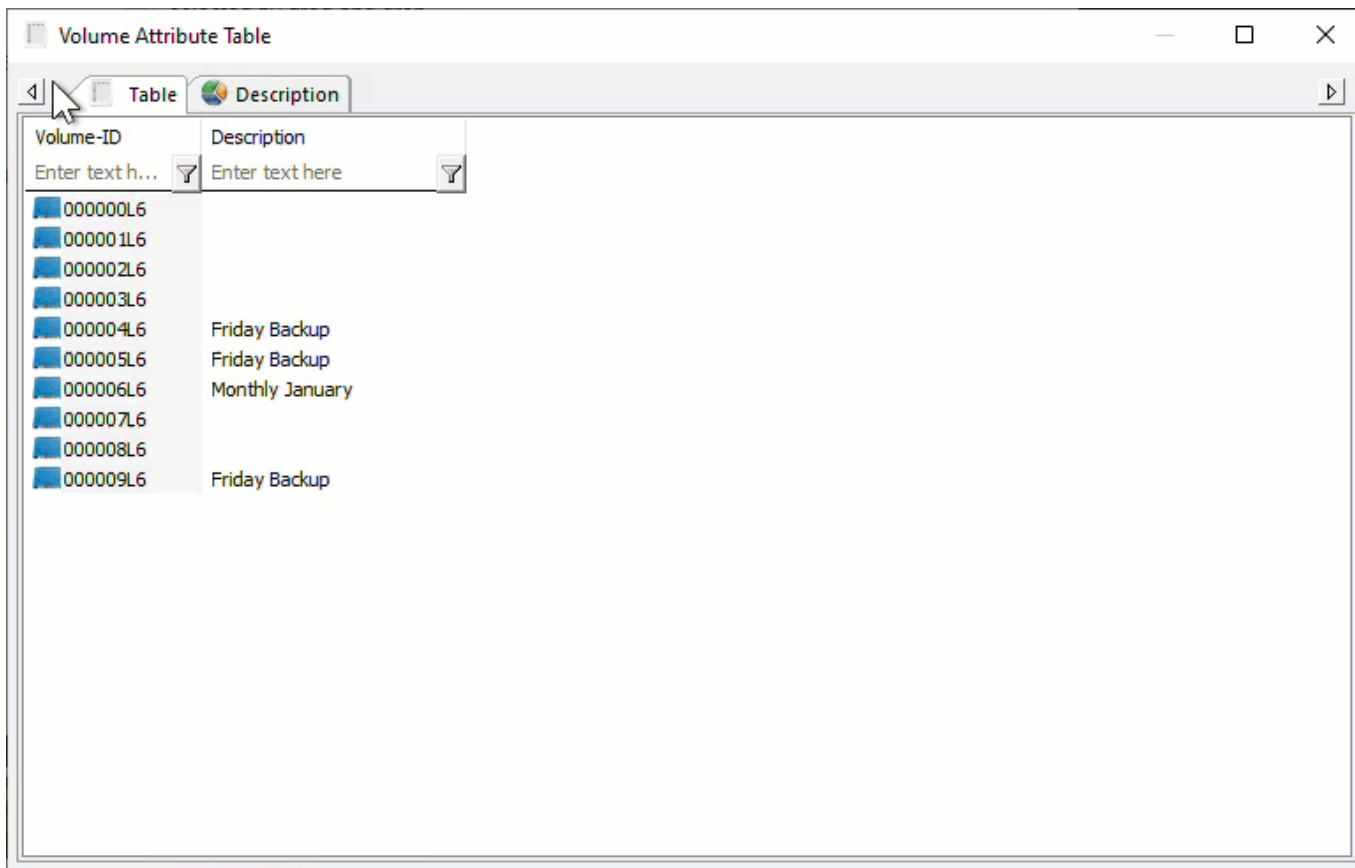

Select all **Volumes** by right-clicking in the Inventory window and select **Select→All**, or using **shift+click** and/or **control+click** select the range of **Volumes** required.

Right-click the selected **Volumes** and click **Report→Attribute Table**.

The Attribute Table will display the selected Volumes along with the currently displayed Attribute value on the Table tab.

The Description tab displays the number of unique description values and the number of instances each value appears. The Pie Chart can be rotated or flipped as required using the mouse cursor and zoomed in and out using the mouse scroll dial.

Data in the Table tab can be filtered by using the TapeTrack [String Filters](#)

Table Tab Right-Click Options
