

Adding and Maintaining Volumes

Adding Individual Volumes

To add a **Volume** either:

- Right-click on a **Media Type** and select Add Volume.

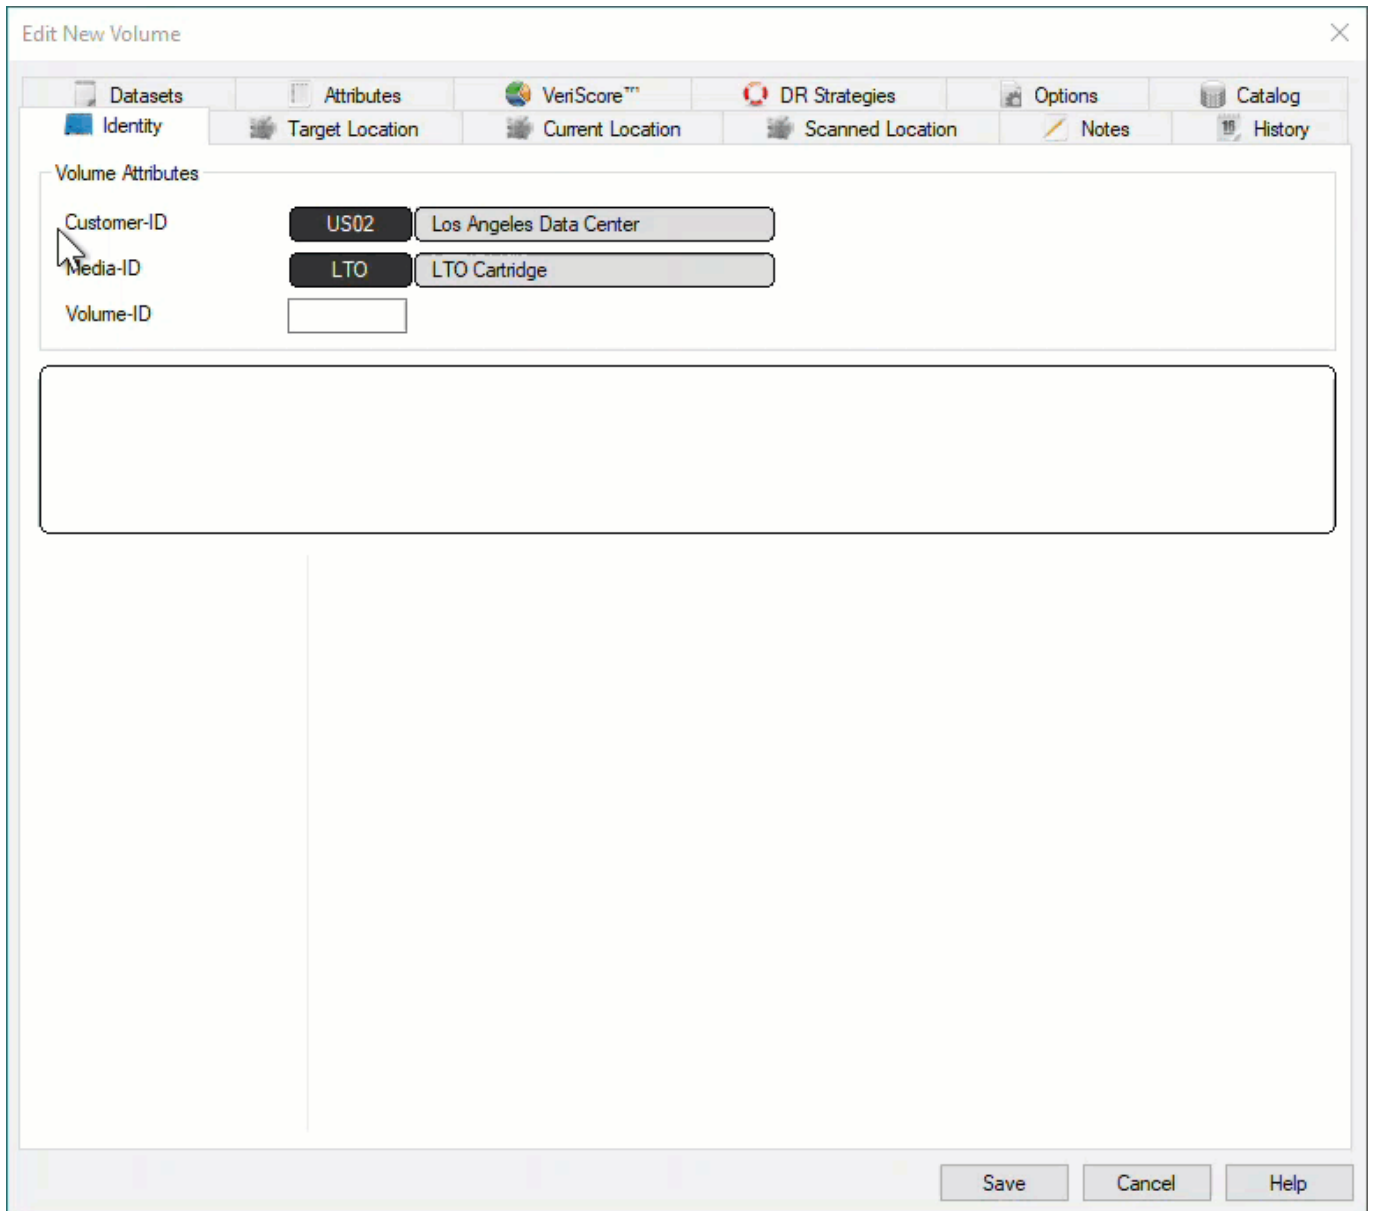

- Right-click in the Inventory window and select Add.

- Click in the Inventory window and press Insert on the keyboard

This will open the Edit New Volume window.

In the Edit New Volume window enter the Volume-ID of the new Volume to be added. Volume-ID's must be unique within a Customer/Media Type scope and must be between 1 and 10 alphanumeric characters long.

Click Save to add [Volume](#).

Adding Multiple Volumes

Right-Click in the Volume List, navigate to Special Operations, and select Scan → Scan to Add Volumes to use a Barcode scanner to add [Volumes](#) to your default [Repository](#).

To add Volumes to a Repository other than your default, right-click the required Repository and select Scan → To Add and scan Volumes to be added.

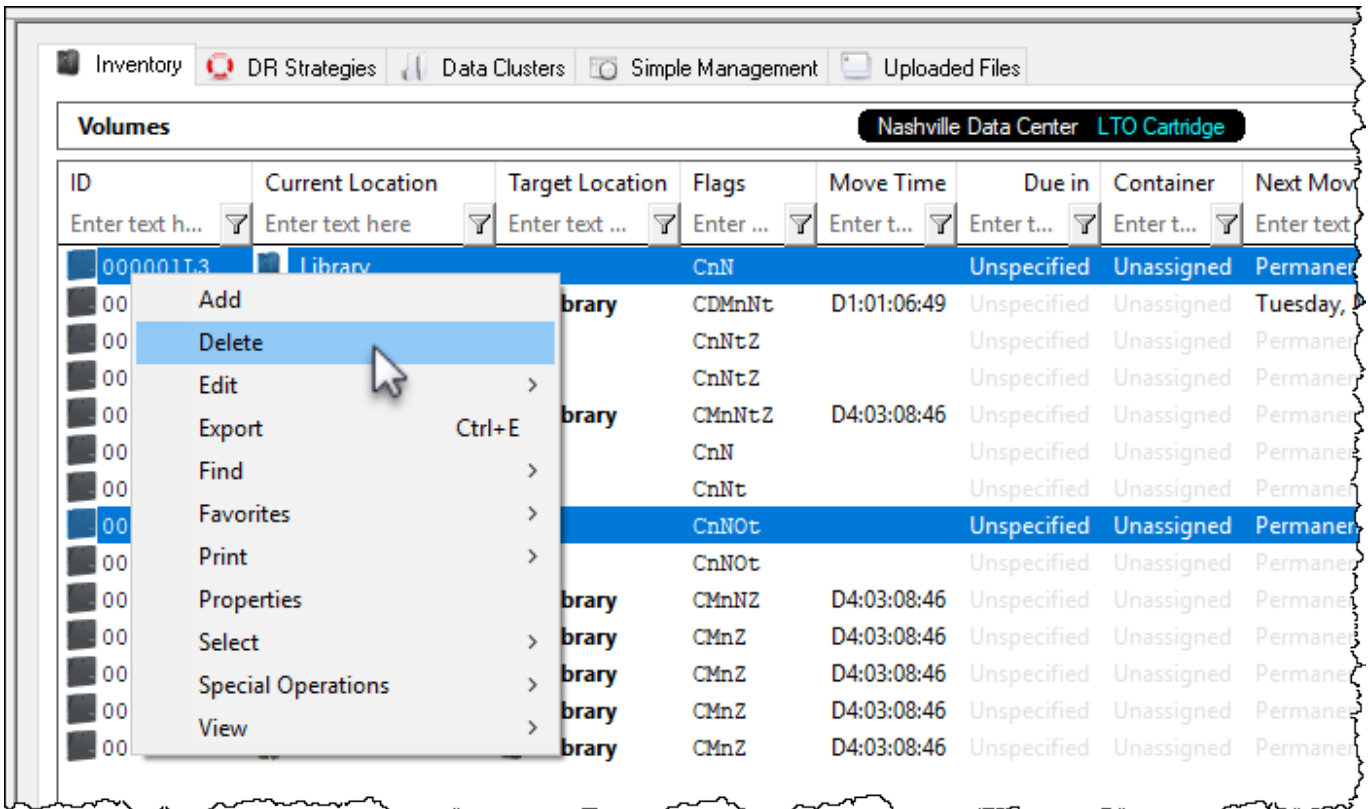

Deleting Volumes

 You must have **Alter** rights to delete [Volumes](#)

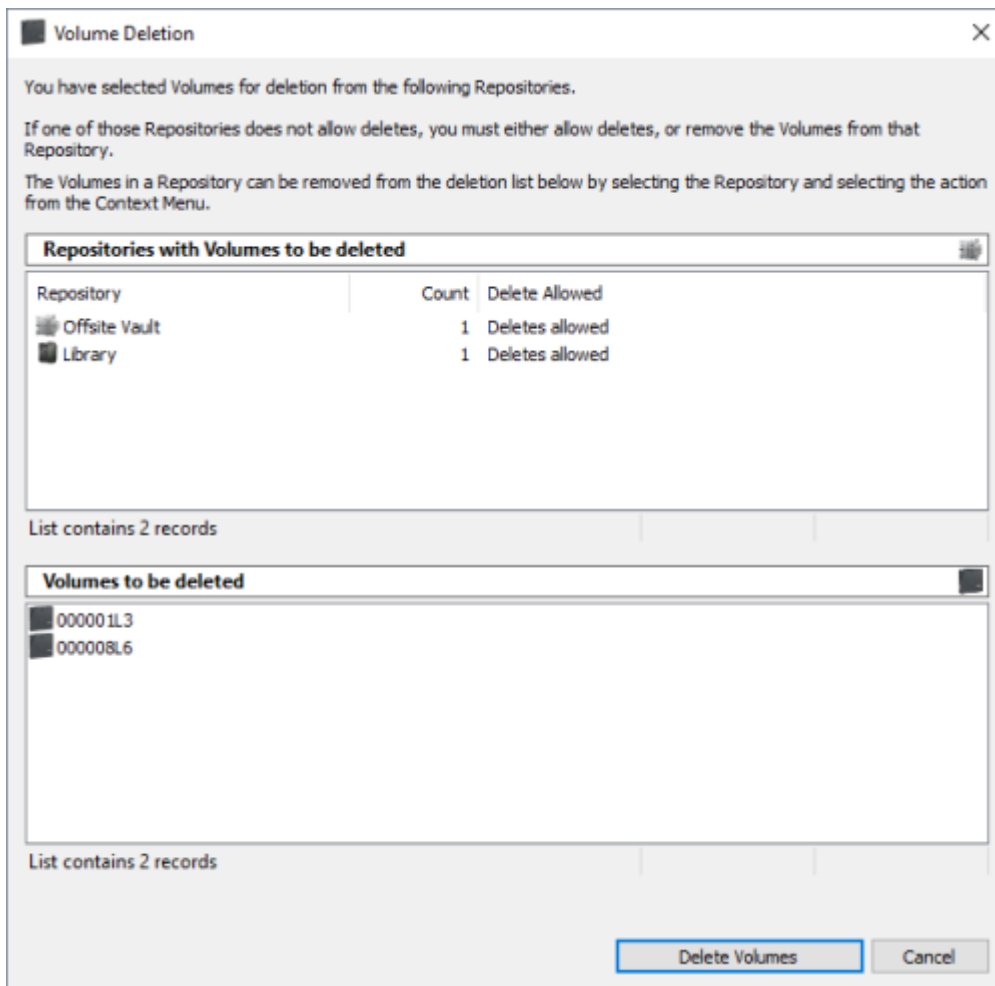

Select the required [Volume](#) , or range of [Volumes](#) from the inventory window you want to delete.

Right-click highlighted [Volumes](#) and select Delete, or press Delete (DEL) on the keyboard.

The **Volume Deletion** window will display the [Repository](#) where the [Volumes](#) to be deleted are located in the top pane and [Volume-ID's](#) in the lower pane.

 If the **Volume Deletion** window is not displayed it is because you are running an outdated version of TapeMaster. Instructions to delete [Volumes](#) in older versions of TapeMaster can be found [here](#)

Each row in the top pane will, along with the [Repository Description](#) (or ID), list the number of [Volumes](#) for deletion and the delete status of either **Deletes Allowed** or **Deletes Forbidden**.

For any [Repository](#) listed with a status of **Deletes Forbidden** you must either:

- Right-clicking the row and selecting **Allow** to change status to **Deletes Allowed**
- Right-clicking the row and selecting **Remove** to remove the [Volumes](#) before deletion of any [Volumes](#) located in a [Repository](#) with **Deletes Allowed** status.

Click **Delete Volumes** and **Yes** to the delete confirmation to delete the **Volumes**.

As deleting **Volumes** is permanent, clicking **No** to the delete confirmation is your last opportunity to cancel the delete function.

When a **Volume** is deleted its historical entries remain in the database. If a deleted **Volume** is added back into the database, all previous history records including when deleted and added back, are listed under that **Volumes History** tab.

Date	Type	From	To
2018-06-12 09:18:58	Scanned-In	Scratch Volumes	Library
2018-06-12 09:18:51	Target Scratch	Scratch Volumes	Library
2018-06-12 09:18:42	Scanned-In	Offsite Vault [000020]	Scratch Volumes
2018-06-12 09:18:35	Target Scratch	Offsite Vault [000020]	Scratch Volumes
2018-06-12 09:18:28	Scanned-In	Library	Offsite Vault [000020]
2018-06-12 09:18:22	Target	Offsite Vault	Offsite Vault [000020]
2018-06-12 09:18:14	Target	Library	Offsite Vault
2018-06-12 09:18:07	Added		Library
2018-05-03 09:04:20	Deleted	Library	Library
2018-05-02 12:49:28	Target	Library	Offsite Vault
2018-04-19 11:26:28	Added		Library

As setting **Repository** to **Allow Deletes** alters the properties of that **Repository**, if required, reset the **Repository** to **no deletes** by right-clicking the required **Repository**, selecting **Properties** and change the **Allow Deletes** field in the **Options** tab to **false**.

Property	Value
Local GUID	55533031-0000-0000-4c54-4f004f464653
Remote GUID	00000000-0000-0000-0000-000000000000
Allowable Volume-IDs	
Type	Vault
Scratch Mode	No Change
