

Special Operations Menu

The **Special Operations Menu** provides advanced functions for **Volumes**.

image.png

Operations

- **Add Note:** The “Add Note” function will launch the Add Note window.
- **Check for Duplicate within Customer:** The “Check for Duplicate within Customer” will search the current Customer for **Volumes** with the same **Volume-ID** as the selected **Volume**.
- **Confirm:** The “Confirm” operation confirms the selected **Volume** at its Target Location when it is in a move.
- **Find Duplicate Slots:** The “Find Duplicate Slots” will find **Volumes** that have been assigned to the same Slot as another **Volume**.
- **Modify:** The Modify Menu contains options to Add a **Volume** to a Container, Add a **Volume** to a Data Cluster, Set a Volume's Home Repository, Modify Flags, and Modify Return Dates.
- **Container:** The Container Menu provides three options: Register, De-Register, and Purge. Register will add the designation of “Container” to a Volume. De-Register will remove the designation of “Container” from a **Volume**. Purge will remove all **Volumes** from a Container.
- **Scan to Add Volumes:** The “Scan to Add Volumes” Function will launch the Barcode Scanning Window and add the **Volumes** being scanned to the selected Customer and Media Type.
- **Scan to Select Volumes:** The “Scan to Select Volumes” function will launch the Barcode Scanning Window and select the **Volumes** being scanned in the **Volume List**.
- **Show Move Dates in Month View:** The “Show Move Dates in Month View” function will launch a window displaying the move dates for the selected **Volume(s)** in a calendar format.
