

Simple Management Rules

Simple Management rules allow automation of a [Volumes](#) next move date based on matching preset criteria. The rules can filter off Media-ID, [Volume-ID](#), Data cluster, from Repository and/or to Repository values.

Enabling Simple Management

Simple Management can be enabled for a Target [Repository](#), or for a specific [Volume](#).

When enabled at a [Repository](#) level, a matching Simple Management Rule must exist with a matching scope for every [Volume](#) moved to that [Repository](#).

When enabled for a specific [Volume](#), a Simple Management Rule must exist with a matching scope that for every [Repository](#) that the [Volume](#) will move to.

Enabling at a Repository level

- Force Simple Management option is set to True.
- As Simple Management sets a Next Move Date, and [Volumes](#) are traditionally moved using the [TMSS10MovePending](#) program, it is recommended that the Next [Repository](#) option is set to an appropriate value.

Property	Value
Type	Library
Scratch Mode	No Change
Scratch Priority	0
Offsite	False
Primary	False
No Distribution	False
Internal	False
Sort Sequence	0
Force Simple Management	True
No Next Repository	False
Allow Deletes	True
Allow Overlaps	False
De-assign from Container	False
Empty Container	False
Do not slot if Container	False
Do not slot	False
Require Tag	False
Require Tag Reset	False
No re-move	False
Disallow backward next move date changes	False
Reset Data Cluster	False
Confirm Container Contents	False
Move Container Contents	False
Late Threshold	0
Highwater Offset	0
Movement Mode	None
Next Repository	Offsite Vault
Enable Slotting	False

Force Simple Management
When a Volume moves to this Repository always run Simple Management

Creating a Simple Management Rule

From the required [Customer's Media](#) type select the Simple Management tab.

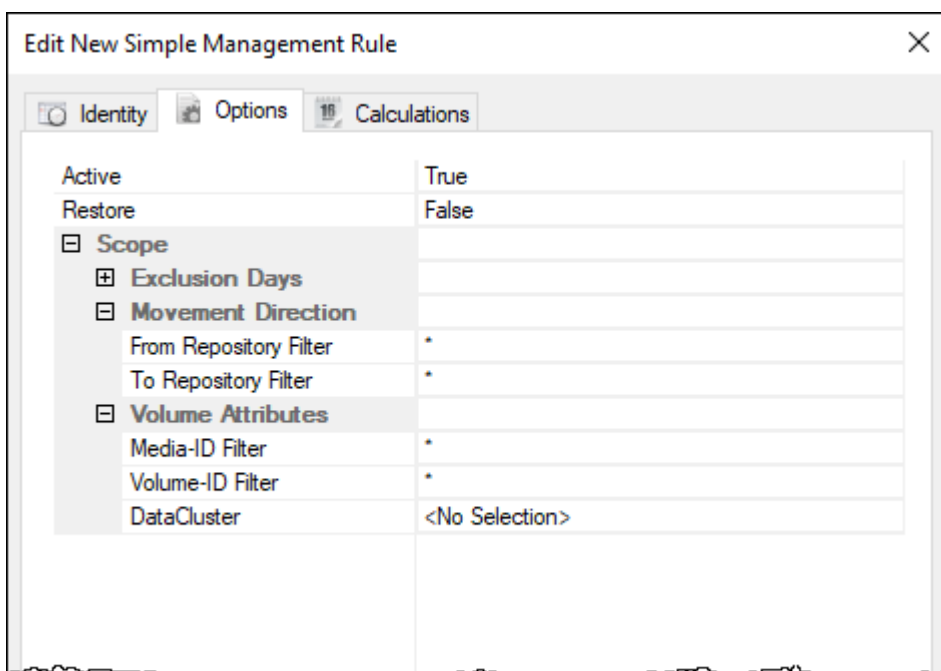

Right-click in the main window and select Add, or press Insert on your keyboard.

In the identity tab, insert a description to describe the rule.

Under the Options tab insert the scope of the rule:

- Active
- Restore
- Scope
 - Exclusion Days
 - Movement Direction
 - From Repository Filter
 - To Repository Filter
 - Volume Attributes
 - Media-ID Filter
 - Volume-ID Filter
 - Data Cluster

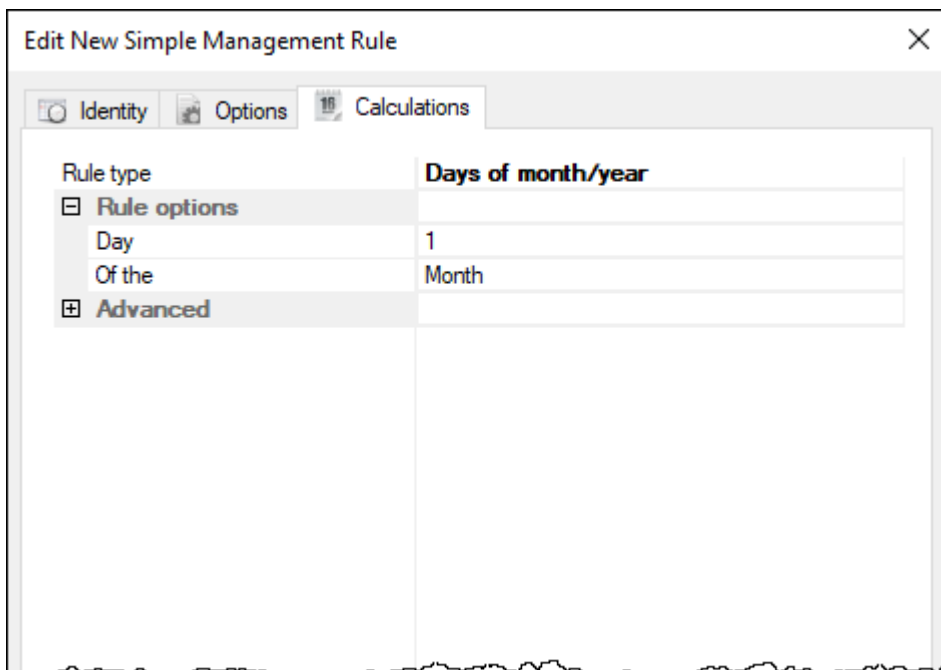

Under the Calculations tab select the rule type: Permanent, Day and/or month, In days, Days of

month/year or restore previous date.

If Day and/or month, In days or Days of month/year is selected you will be presented with extra rule options:

- Rule Options
 - Day of week
 - Of
- Advanced
 - Iterations
 - Adjustments
 - Days
 - Then adjust to
 - Skips
 - Days
 - Holidays
 - Also skip last
