

# Volume History

Volume history tab displays all historical records attached to a volume including creation, location movements and user interactions.

## History Summary

| Date                | Type            | From                   | To                     |
|---------------------|-----------------|------------------------|------------------------|
| 2018-06-12 09:18:58 | Scanned-In      | Scratch Volumes        | Library                |
| 2018-06-12 09:18:51 | Target !Scratch | Scratch Volumes        | Library                |
| 2018-06-12 09:18:42 | Scanned-In      | Offsite Vault [000020] | Scratch Volumes        |
| 2018-06-12 09:18:35 | Target Scratch  | Offsite Vault [000020] | Scratch Volumes        |
| 2018-06-12 09:18:28 | Scanned-In      | Library                | Offsite Vault [000020] |
| 2018-06-12 09:18:22 | Target          | Offsite Vault          | Offsite Vault [000020] |
| 2018-06-12 09:18:14 | Target          | Library                | Offsite Vault          |
| 2018-06-12 09:18:07 | Added           | Library                | Library                |
| 2018-05-03 09:04:20 | Deleted         | Library                | Offsite Vault          |
| 2018-05-02 12:49:28 | Target          | Library                | Library                |
| 2018-04-19 11:26:28 | Added           |                        |                        |

Historical events for the volume display summary details on the **History** tab.

For each of these events, the date, time type and locations are listed.

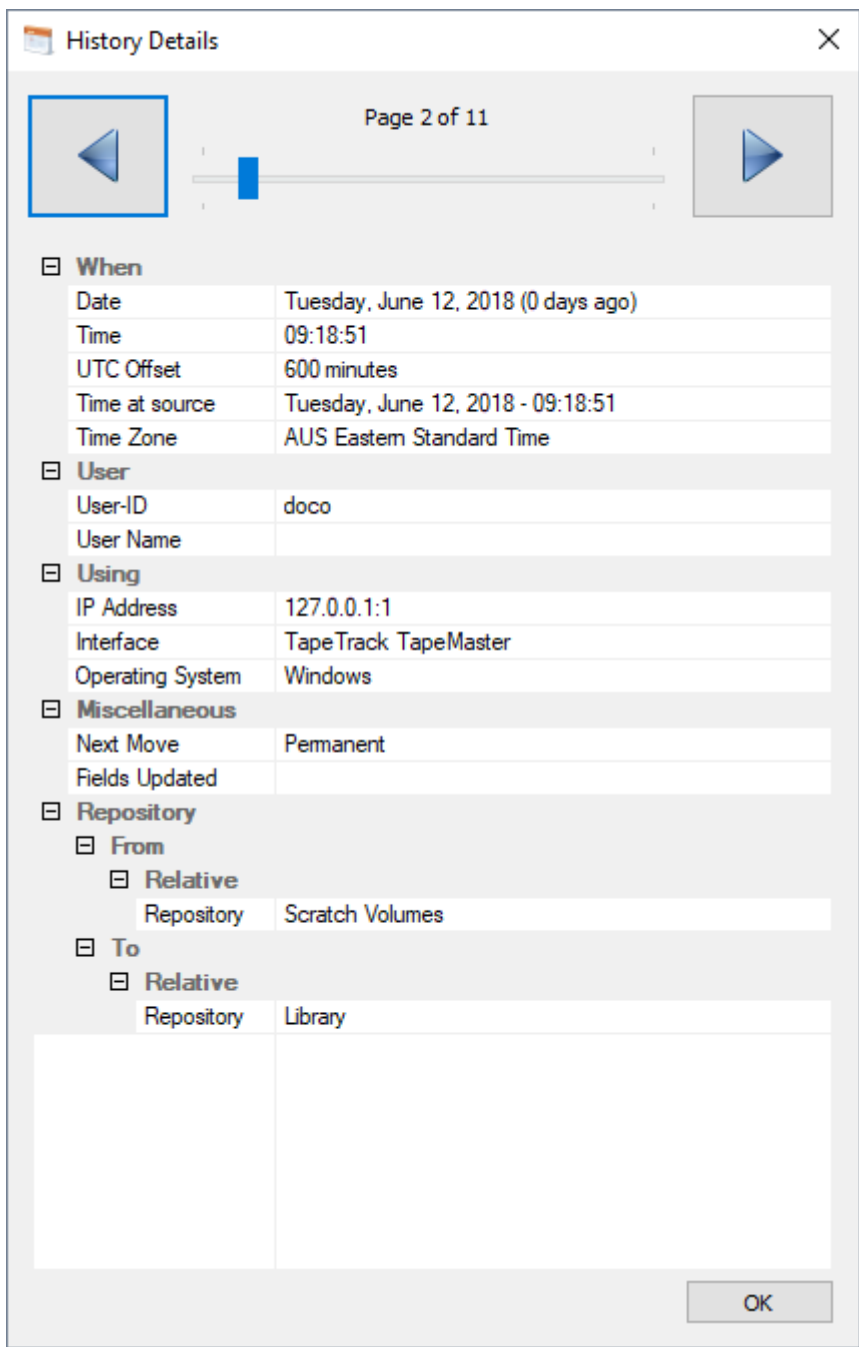

Types of historical events include:

- **Added** - Creation of volume.
- **Deleted** - Deletion or Removal of volume.
- **Target** - New Target location, volume place in a move.
- **Scanned-Out** - Scanning volume out to record leaving current repository.
- **Scanned-In** - Scanning in volume to confirm arrival at target repository.
- **Scratch** - Scratch status (Z flag) added to volume.
- **!Scratch** - Scratch status removed from volume.
- **Date** - Adding next move date to volume.

## History Details

Right clicking on a historical entry, or double clicking, and selecting **Details** will open a **History**

### Details window.

This provides a more verbose listing of the historical entry including:

- Dates and Times including UTC offset, source time and time zone.
- User performing the action including IP, TapeTrack software and operating system.
- Next Move date
- Locations including to, from and zone information if applicable.

## Exporting History

To export historical entries, select required entry or range select entries (ctrl + click, shift + click), right click and select Export and follow prompts to export to required file type.
