The **Volume Attributes** panel (A) displays:

- Customer-ID and Description.
- Media-ID and Description.
- Volume ID.

The volume ID is set on creation of the volume and is then, in normal operation, a non editable field as are the Customer ID and Media-ID fields.

The center panel (B) shows a barcode image of the volume's ID.

Expanding the lower section **Update Statistics** (C) displays information of when, where and who created the volume. These values are set automatically on creation of the volume and are non editable fields.
