

# Volume-Identity

The **Identity** tab of the volumes properties displays the volume's unique identification Attributes including Customer-ID, Media-ID and Volume-ID as well as other data specific to the volume's identity.

The screenshot shows the 'Edit Volume: 000010L5' dialog box with the 'Identity' tab selected. The dialog has a toolbar with icons for Datasets, Attributes, VeriScore™, DR Strategies, Options, and Catalog. Below the toolbar are tabs for Identity, Target Location, Current Location, Scanned Location, Notes, and History. The 'Volume Attributes' section (A) contains three rows: Customer-ID (US04, Nashville Data Center), Media-ID (LTO, LTO Cartridge), and Volume-ID (000010L5). Below this is a large barcode (B) with the text '000010L5' underneath it. The 'Update Statistics' section (C) is expanded, showing details for 'When' (Date, Time, UTC Offset, Time at source, Time Zone), 'From' (Machine Name), 'Details' (Connection Count, First Connection, Last Connection, Interface, Operating System), and 'As' (User-ID, User Name). At the bottom are 'Save', 'Cancel', and 'Help' buttons.

Volume Attributes	
Customer-ID	US04 Nashville Data Center
Media-ID	LTO LTO Cartridge
Volume-ID	000010L5

Barcode: 000010L5

Interface	TMSS10Mirror
Operating System	Windows
As	
User-ID	doco
User Name	

Save Cancel Help

The **Volume Attributes** panel (A) displays:

- Customer-ID and Description.
- Media-ID and Description.
- Volume-ID.

The Volume-ID is set on creation of the volume and is then, in normal operation, a non editable field as are the Customer-ID and Media-ID fields.

The center panel (B) shows a barcode image of the volume's ID.

Expanding the lower section **Update Statistics** (C) displays information of when, where and who created the volume. These values are set automatically on creation of the volume and are non editable fields.
