

Volume Identity

The Identity tab of the **Volumes** properties displays the **Volume's** unique identification Attributes including **Customer-ID**, **Media-ID** and **Volume-ID** as well as other data specific to the volume's identity.

The **Volume Attributes** panel displays:

- **Customer-ID** and **Description**.
- **Media-ID** and **Description**.
- **Volume-ID**.

The **Volume-ID** is set on creation of the **Volume** and is then, in normal operation, a non editable field as are the **Customer-ID** and **Media-ID** fields.

The center panel shows a barcode image of the **Volume-ID**.

Expanding the lower section **Update Statistics** displays information of when, where and who created the **Volume**. These values are captured automatically on creation of the **Volume** and are non editable fields.
