

Volume Notes

Notes can be permanently attached to volumes to record information useful in day to day operations, such as volume damage, current stored data or other reasons you may find helpful.

Notes are not deletable and can be used in some jurisdictions for corporate governance, privacy, and slander laws.

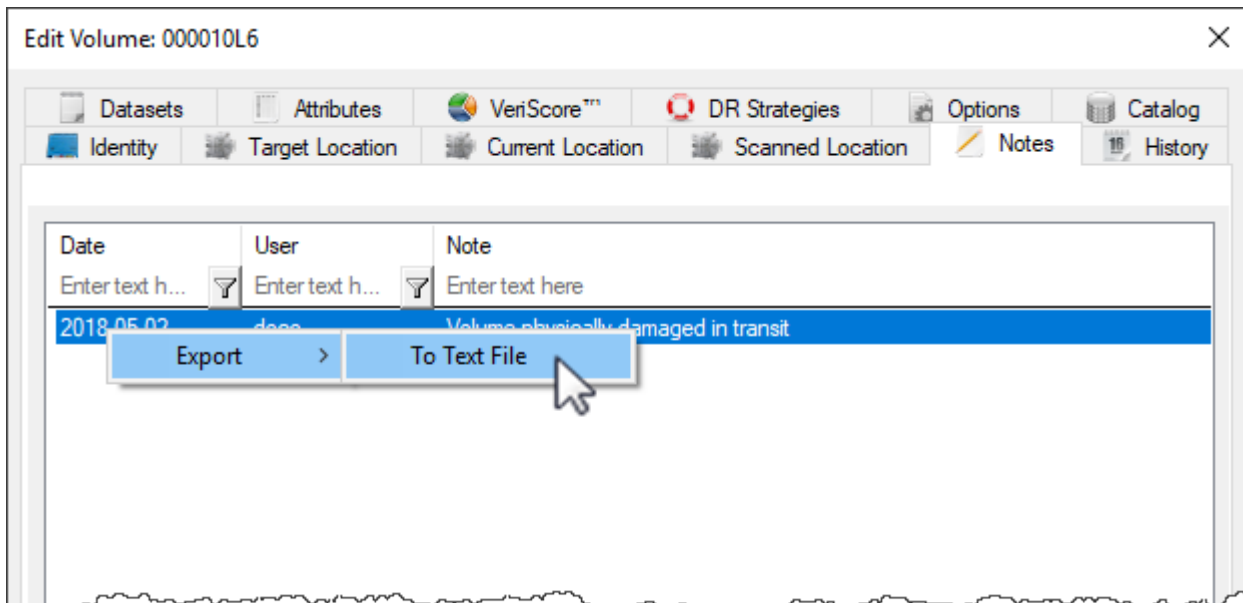

The screenshot shows a software window titled "Edit Volume: 000010L6". The window has a menu bar with the following items: Datasets, Attributes, VeriScore™, DR Strategies, Options, and Catalog. Below the menu bar is a toolbar with icons for Identity, Target Location, Current Location, Scanned Location, Notes (highlighted), and History. The main area of the window displays a table with three columns: Date, User, and Note. The table contains one row of data.

Date	User	Note
2018-05-02	doco	Volume physically damaged in transit

At the bottom of the window, there are three buttons: Save, Cancel, and Help.

The Notes tab show the date each note was added to the volume, who added the note and the note text itself.

A note, or notes, can be exported to text file by selecting the required note/s and right-clicking and selecting Export → To Text File.
