

Media Options : Barcodes Use Modulo43

The **Media** Option **Barcodes Use Modulo43** checks scanned **Volume-ID's** for a Modulo43 check digit. If the barcode is verified as **Modulo43**, the check digit is removed before entry into TapeTrack. If the barcode does not qualify as a **Modulo43** barcode, it is entered into TapeTrack without modification.

Options

- True: Barcodes with Modulo43 will have the check digit removed.
- False: Barcodes do not use Modulo43 check digits.
