2025/10/17 21:42 1/1 Offsite

## **Repository Option: Offsite**

The Repository Option Offsite designates the Repository as Offsite.

The Offsite designation is used to help enforce Disaster Recovery Volumes are stored Offsite, keeping the backup data in a safe location in the event of an Onsite disaster such as data corruption or loss.

## **Offsite Options**

The Offsite options are:

- True Repository is considered Offsite.
- False Repository is considered Onsite.
