

# TapeTrack Extensions

TapeTrack has several extensions to make tape management more efficient and user friendly.

## Slack App

The TapeTrack Slack App allows you to query tape libraries and move tapes from one location to another, all from within [Slack](#).

Full details on the [TapeTrack Slack App](#) can be viewed [here](#)

## Connecting the App

To install the App simply click the App icon on the Slack app directory or by clicking the icon below.

```
<html> <a
href="https://slack.com/oauth/authorize?scope=commands&client_id=164668305509.189569582598"
"></a> </html>
```

As all settings are set via `/tapetrack` commands, there is no need to interact outside of Slack during installation.
