Right click the highlighted Volumes and select Special Printing→Labels.

The screenshot shows the TapeTrack TapeMaster™ (GazillaByte) interface. The main window is titled 'Volumes' and is filtered for 'Los Angeles Data Center LTO Cartridge'. The table below shows the selected volumes:

Barcode Printer Specifications

In the left window of the Barcode Printer set you preferred specifications on barcode layout.

If unsure of the layout or sizing of the barcodes, selecting File→Print Preview will allow you to

see the output layout before committing to printing.

Once satisfied with the settings, barcodes can be printed by selecting File→Print and directing the print job to your preferred printer.
