2025/05/24 06:18 1/1 Installing

Installing

Windows

The TapeTrack Framework Server will be installed by an InstallShield process.

At the conclusion of the installation process, the installer will also kick-off an install of the following packages, which can optionally be installed:

- 1. TapeTrack TapeMaster
- 2. TapeTrack Server Utilities

Linux

The TapeTrack Framework Server will be installed by the Redhat Package Manager (RPM).

An example installation command is:

```
rpm -i
http://mirror-us.tapetrack.com/Linux-x86/tapetrack-clients-2018.1-2.i386.rpm
```

```
rpm -i
http://mirror-us.tapetrack.com/Linux-x86/tapetrack-server-2018.1-2.i386.rpm
```
