

Certificates and Certification

In TapeTrack, a **Certificate** is a digitally-generated form that indicates whether a **Repository** is performing adequately or not. **Repositories** can either receive a Certified status or a Refused status. **Repositories** gaining a Certificate Refused status have Audit Failures due to either surplus **Volumes** or deficit **Volumes**.

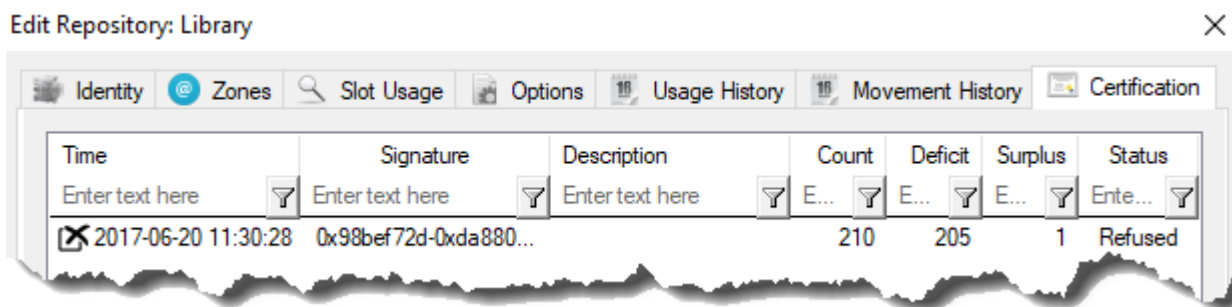

Generating Certificates

Certificates can be generated by right-clicking on a Repository and selecting Generate Certificate.

Viewing Certificates

Certificates can be viewed under the Certification Tab in the Repository Properties Window.
