Certificates and Certification

In TapeTrack, a **Certificate** is a digitally-generated form that indicates whether or not a Repository is performing adequately. Repositories can either receive a Certified status or a Refused status. Repositories gaining a Certificate Refused status have Audit Failures due to either surplus Volumes or deficit Volumes.

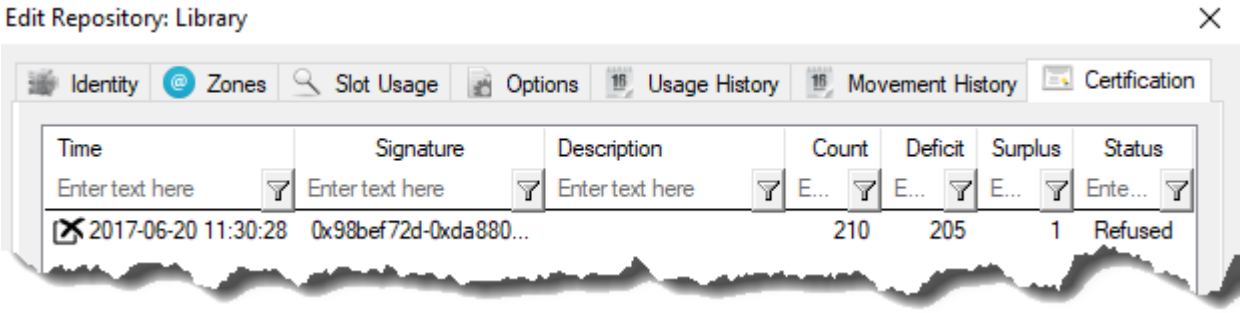

Generating Certificates

Certificates can be generated by right-clicking on a Repository and selecting `Generate Certificate`.

Viewing Certificates

Certificates can be viewed under the `Certification Tab` in the Repository Properties Window.
