Certificates and Certification

In TapeTrack, a **Certificate** is a digitally-generated form that indicates whether or not a Repository is performing adequately. Repositories can either receive a Certified status or a Refused status. Repositories gaining a Certificate Refused status have Audit Failures due to either surplus Volumes or deficit Volumes.

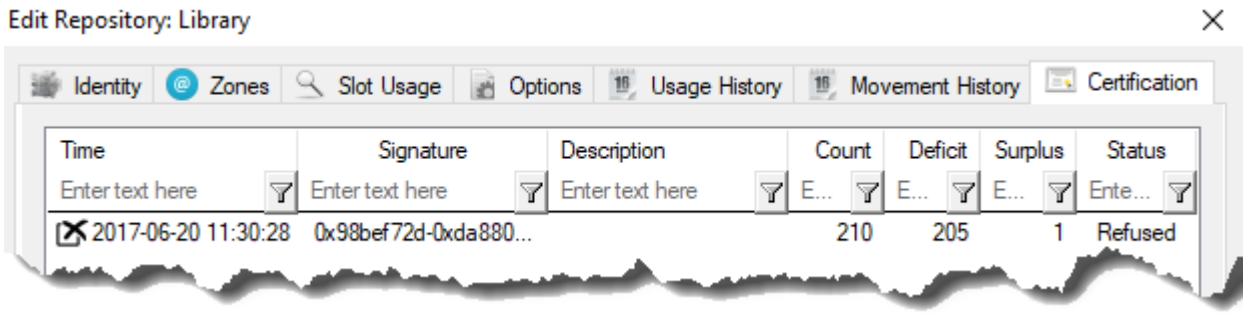

certificates that have previously been generated can be viewed on the Certificate tab.

- **Time** displays the date and time the certificate was produced
  - A tick indicates a successful certification
  - A cross indicates an unsuccessful certification

Viewing Certificates

Certificates can be viewed under the `Certification Tab` in the Repository Properties Window.
