

Certificates and Certification

In TapeTrack, a **Certificate** is a digitally-generated form that indicates whether or not a **Repository** is performing adequately. **Repositories** can either receive a Certified status or a Refused status. **Repositories** gaining a Certificate Refused status have Audit Failures due to either surplus **Volumes** or deficit **Volumes**.

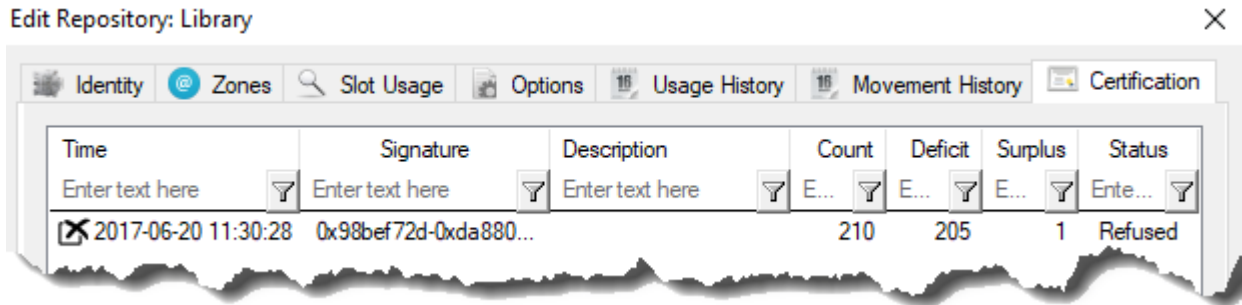

certificates that have previously been **generated** can be viewed on the Certificate tab.

- **Time** displays the date and time the certificate was produced
 - A tick indicates a successful certification
 - A cross indicates an unsuccessful certification

Viewing Certificates

Certificates can be viewed under the Certification Tab in the [Repository Properties Window](#).
