

The Simple Management Subsystem

The Simple Management Subsystem can be used to automatically set the Next Move Date of a [Volume](#) at the point it is moved to a new Target [Repository](#).

This can be enabled at either a Target [Repository](#) level, or at an individual [Volume](#) level.

Calculations

The purpose of the calculations is to set the Next Move date based on the criteria set.

The information displayed under the Calculations tab varies depending on the Rule Type selected.

The following information is separated according to the Rule Type selected.

Permanent

Rule Type: Permanent

The screenshot shows a dialog box titled "Edit New Simple Management Rule" with a close button (X) in the top right corner. The dialog has three tabs: "Identity", "Options", and "Calculations". The "Rule type" dropdown menu is set to "Permanent". Below the dropdown is a large empty text area. At the bottom of the dialog, there is a "Run Prediction" button with a blue border, and three buttons: "Save", "Cancel", and "Help". A tooltip for the "Rule type" dropdown is visible, showing the text "Rule type" and "Type of Simple Management Rule".
