

# The Simple Management Subsystem

The Simple Management Subsystem can be used to automatically set the Next Move Date of a [Volume](#) at the point it is moved to a new Target [Repository](#).

This can be enabled at either a Target [Repository](#) level, or at an individual [Volume](#) level.

## Calculations

The purpose of the calculations is to set the Next Move date based on the criteria set.

The information displayed under the Calculations tab varies depending on the Rule Type selected.

The following information is separated according to the Rule Type selected.

## Permanent

Rule Type: Permanent

The screenshot shows a dialog box titled "Edit New Simple Management Rule". At the top, there are three tabs: "Identity", "Options", and "Calculations". Below the tabs, there is a dropdown menu labeled "Rule type" which is currently set to "Permanent". Below the dropdown menu, there is a large empty rectangular area. At the bottom of this area, there is a button labeled "Run Prediction" which is highlighted with a blue border. Below the "Run Prediction" button, there is a label "Rule type" and a description "Type of Simple Management Rule". At the very bottom of the dialog box, there are three buttons: "Save", "Cancel", and "Help".

Sets Next Move Date to Permanent
