

The Simple Management Subsystem

The Simple Management Subsystem can be used to automatically set the Next Move Date of a [Volume](#) at the point it is moved to a new Target [Repository](#).

This can be enabled at either a Target [Repository](#) level, or at an individual [Volume](#) level.

Calculations

The purpose of the calculations is to set the Next Move date based on the criteria set.

The information displayed under the Calculations tab varies depending on the Rule Type selected.

The following information is separated according to the Rule Type selected.

Permanent

Rule Type: Permanent

The screenshot shows a dialog box titled "Edit New Simple Management Rule". At the top, there are three tabs: "Identity", "Options", and "Calculations". Below the tabs, there is a "Rule type" dropdown menu currently set to "Permanent". The main area of the dialog is empty. At the bottom of the main area, there is a button labeled "Run Prediction" which is highlighted with a blue border. Below this button, there is a label "Rule type" followed by the text "Type of Simple Management Rule". At the very bottom of the dialog, there are three buttons: "Save", "Cancel", and "Help".
