# Adding And Removing Registry Key Lite Start-up

To confirm whether Lite is executing correctly you can enable a popup that will display at the beginning of the software execution.

If you don't see the popup displayed, the software is being blocked by something on your computer system. Contact your system administrator to diagnose what is blocking Lite from executing.

If you see the popup displayed, Lite has entered the execution phase.

# Adding Lite Start-up Registry Key

## Creating Registry Key File

1

You will need admin rights to edit the registry file.

To add the registry key StartMessage automatically to your registry without the need to use regedit, copy the code below to your clipboard.

```
Windows Registry Editor Version 5.00
[HKEY_CURRENT_USER\SOFTWARE\GazillaByte\TMSSLite\Options]
"StartMessage"="TapeTrack Lite has initialised, click OK to continue"
```

Open a text editor, such as NotePad, and paste the code into it.

TapeTrack_Lite_Add Start_Key.reg - Notepad			$\times$
File Edit Format View Help			
Windows Registry Editor Version 5.00			~
[HKEY CURRENT USER\SOFTWARE\GazillaByte\TMSSLite\Options]			
"StartMessage"="Lite has initialised, click OK to continue	."		
			~
<			>
Ln 1, Col 1 100% Windows (CRLF)	UTF-1	6 LE	

Save this file with a .reg extension, eg TapeTrack\_Lite\_Add Start\_Key.reg to a known location on your computer.

Save As			×

You will be presented with a warning popup asking if you want to run regedit.

Click Yes to continue

Once regedit runs, you will be presented with a warning from the Registry Editor about executing the .reg file you created.

Registr	y Editor
	Adding information can unintentionally change or delete values and cause components to stop working correctly. If you do not trust the source of this information in C:\Users\GazillaByte\TapeTrack_Lite_Add Start_Key.reg, do not add it to the registry.
	Are you sure you want to continue?
	Yes No

Click Yes to continue.

The Registry Editor will add the registry key and display a popup informing you the key has been added.

Click OK to close the popup.

#### **Checking Lite Execution**

Run Lite, the popup will be displayed as the program executes displaying the set message.

Startup N	lessage	×
1	Lite has initialised, click OK to continue	
	ОК	

Click OK to close the popup and continue starting Lite.

### **Removing Lite Start-up Registry Key**

Follow the same procedure as adding the registry code (above) but use the following code to add to the .reg file
