

# Adding New Volumes In Lite

Adding new [Volumes](#) to TapeTrack using Lite can be achieved using one of two methods depending on the outcome required.

## Prerequisites

To add new [Volumes](#) you will need to have, at the minimum, read/write/alter access associated with your User-ID.

If you don't know if you have alter access rights you can check with your TapeTrack Administrator or continue with the process to add the new [Volumes](#) and check the results. If you do have alter rights, the [Volumes](#) will be added successfully, if you don't you will receive an error stating Security does not allow this operation.

If you find you don't have alter rights, you will need to contact your TapeTrack administrator to either upgrade your access credentials or have them add the new [Volumes](#) for you.

If you would like assistance in providing the required information to your TapeTrack administrator (or Vaulting Service) please contact us via the [Helpdesk](#).

## Adding New Volumes In Lite In Volume Management

Select Volume Management from the **Task Menu** and click Next to continue.

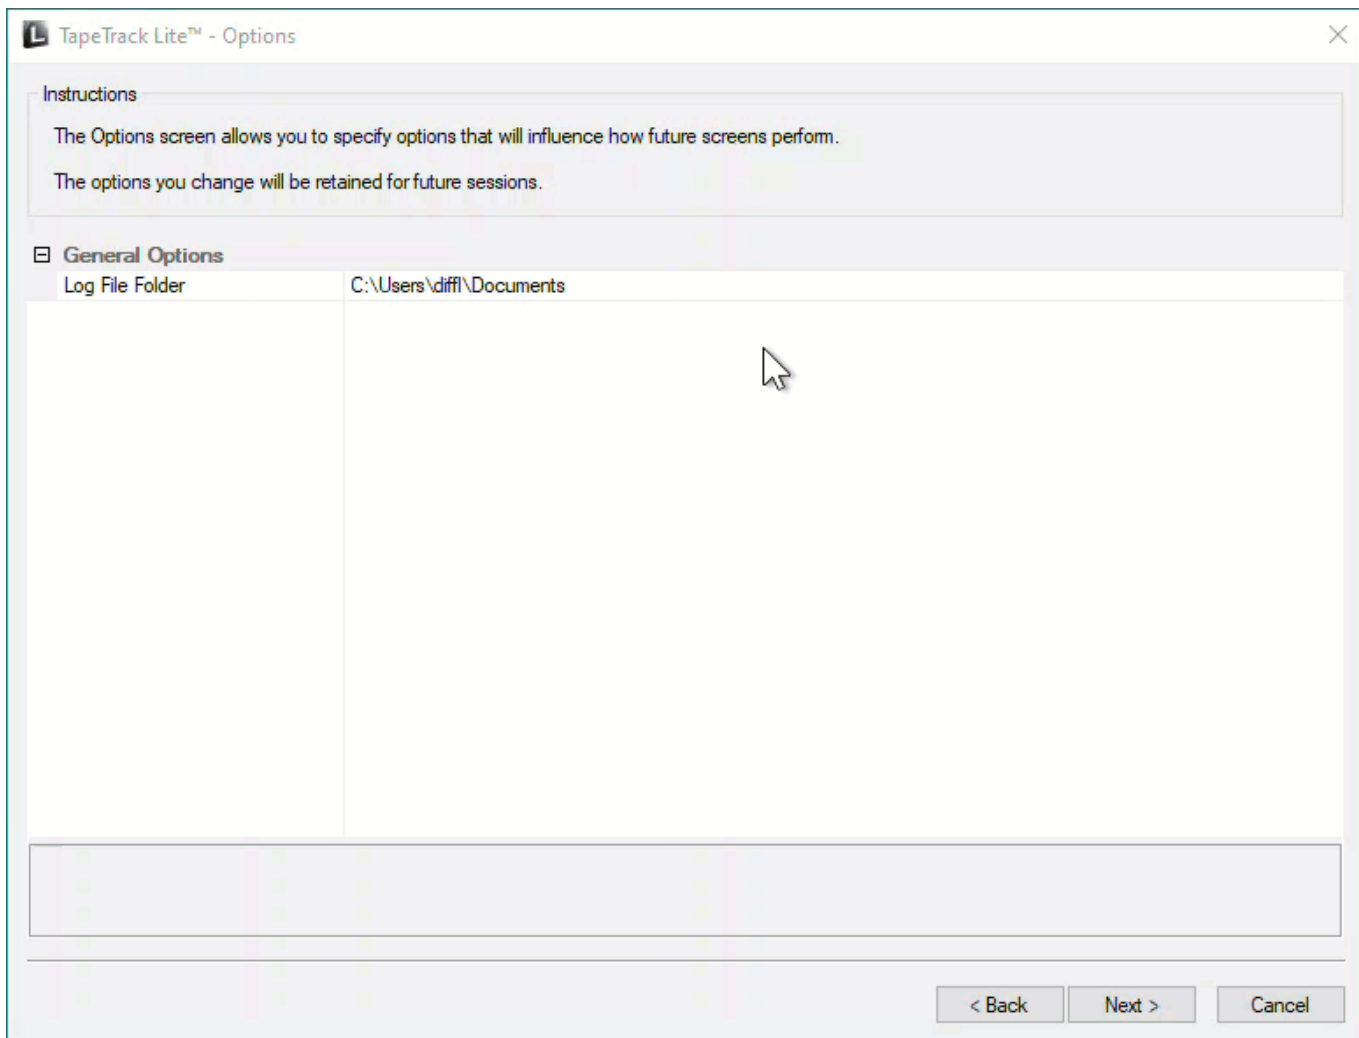

## Options

This will open the **Options** window. If required you can set the location for the log files to be written to by, or leave the default.

To change the location the log file is written to:

- Click in the field where the current write location is to display the ellipsis button (...) to the right.
- Click on the ellipsis button to display the Browse for Folder window.
- Select the required folder to write the log file to.
- Click OK to close the window.

Click Next to continue.

## Selecting a Customer

If you only have access to one **Customer-ID**, the **Customer** will be automatically selected and this window will be skipped

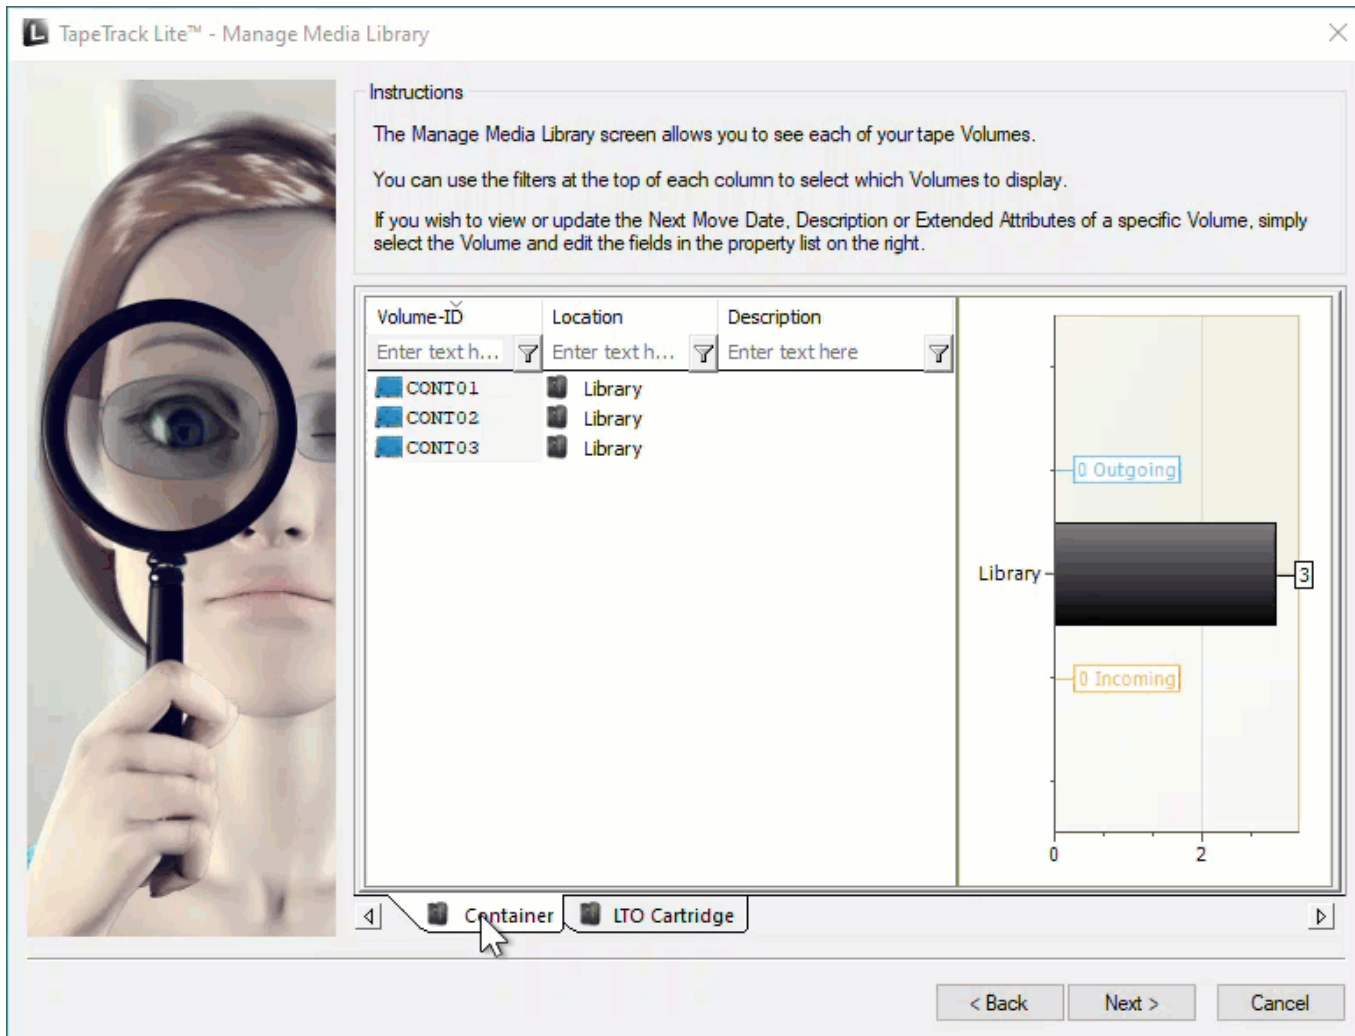

From the **Customer Selection** window select a **Customer** that the new **Volume/s** are to be added to by double-clicking a **Customer** or selecting a **Customer** and clicking **Next**.

| Customer                   | Volumes | Moves |
|----------------------------|---------|-------|
| New York Data Center       | 868,805 | 4     |
| Los Angeles Data Center    | 1,578   | 346   |
| North Carolina Data Center | 1,349   | 215   |
| <hr/>                      |         |       |
|                            | 871,732 | 565   |

## Selecting Media Type

 If you only have access to one [Media-ID](#), there will only be one tab.

If you have more than one [Media Type](#), select the required [Media Type](#) from the tabs at the bottom of the **Manage Media Library** window.

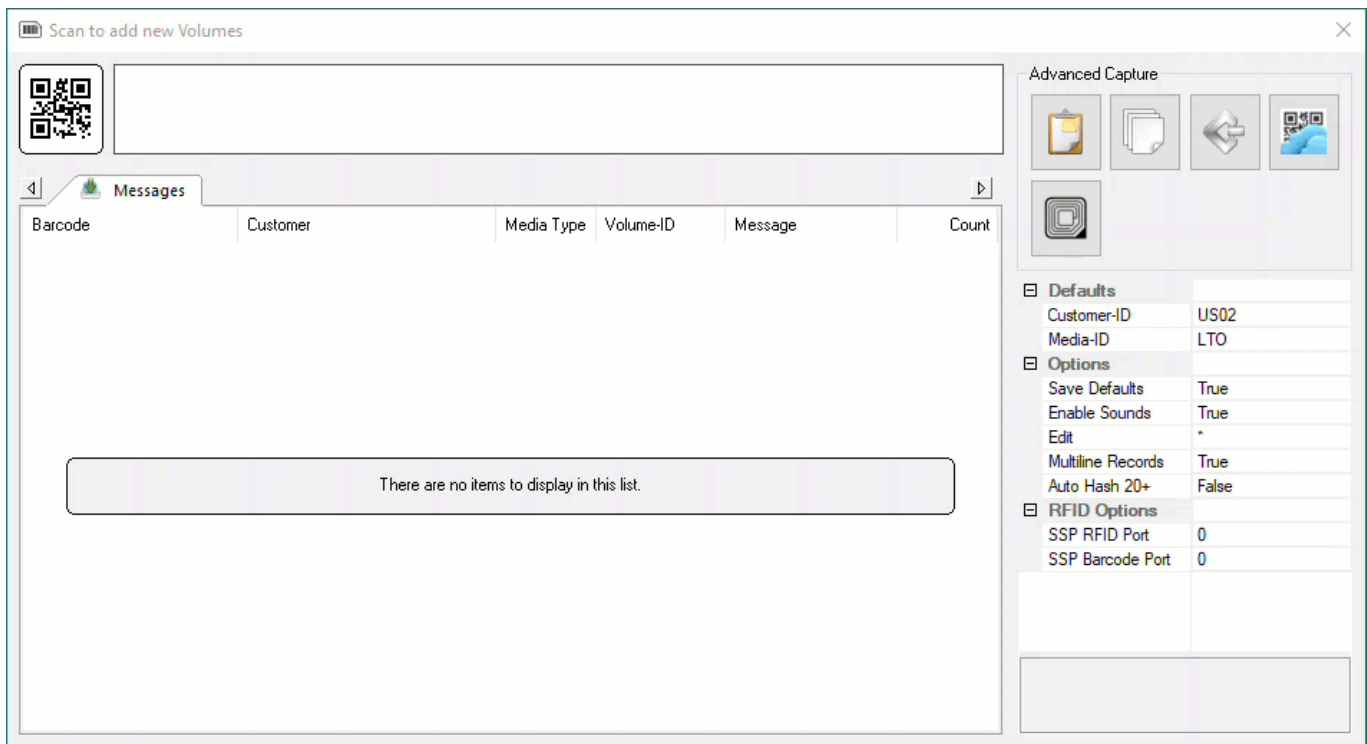

## Open Scan Window

Right click anywhere in the window where the **Volumes** are listed to open the menu options.

Select Scan > To Add to open the Scan In window.

## Scan-In Volumes

Scan in your new **Volumes** into the **Scan-In** window using your preferred [scanning method](#)

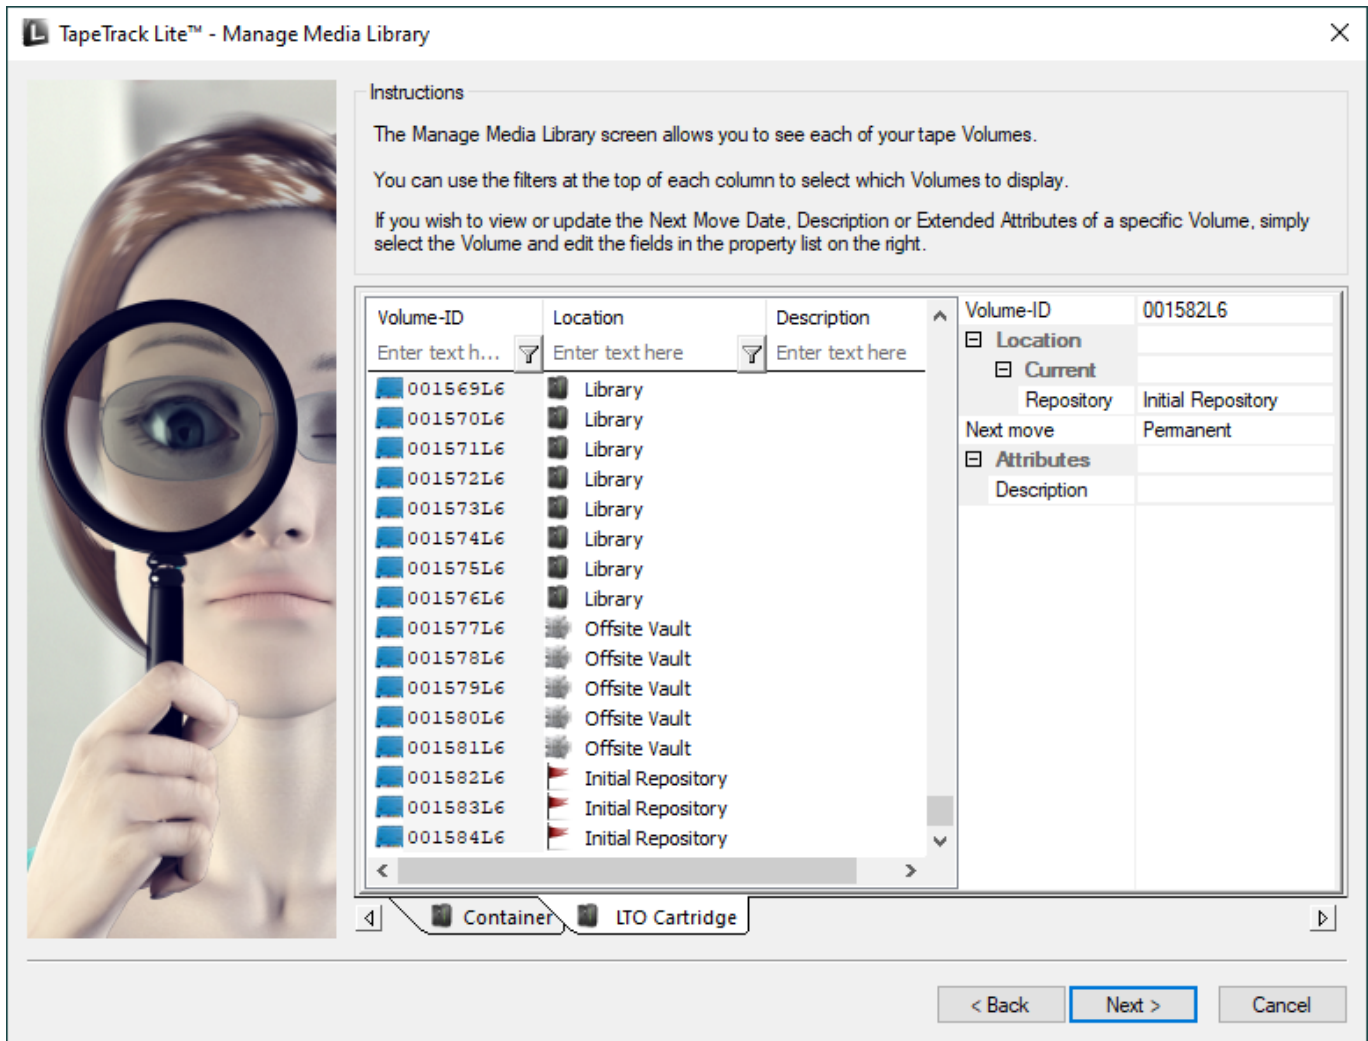

When all new **Volumes** have been scanned close the **Scan-in** window by clicking X in the top right corner.

Your new **Volumes** will now show in the **Volume** List.

If you have a default Repository (set in TapeMaster) the new **Volumes** will be assigned to that **Repository**. If no default **Repository** has been set the new **Volumes** will be assigned to the **Initial Repository**.

To move the **Volumes** , after completing the Volume Management process, see **Move Volumes**.

### Adding Description And Next Move Date

Through the Volume Management process, you can add a Description and Next Move Date to the new Volumes, and other Volumes through the right-hand side of the window.

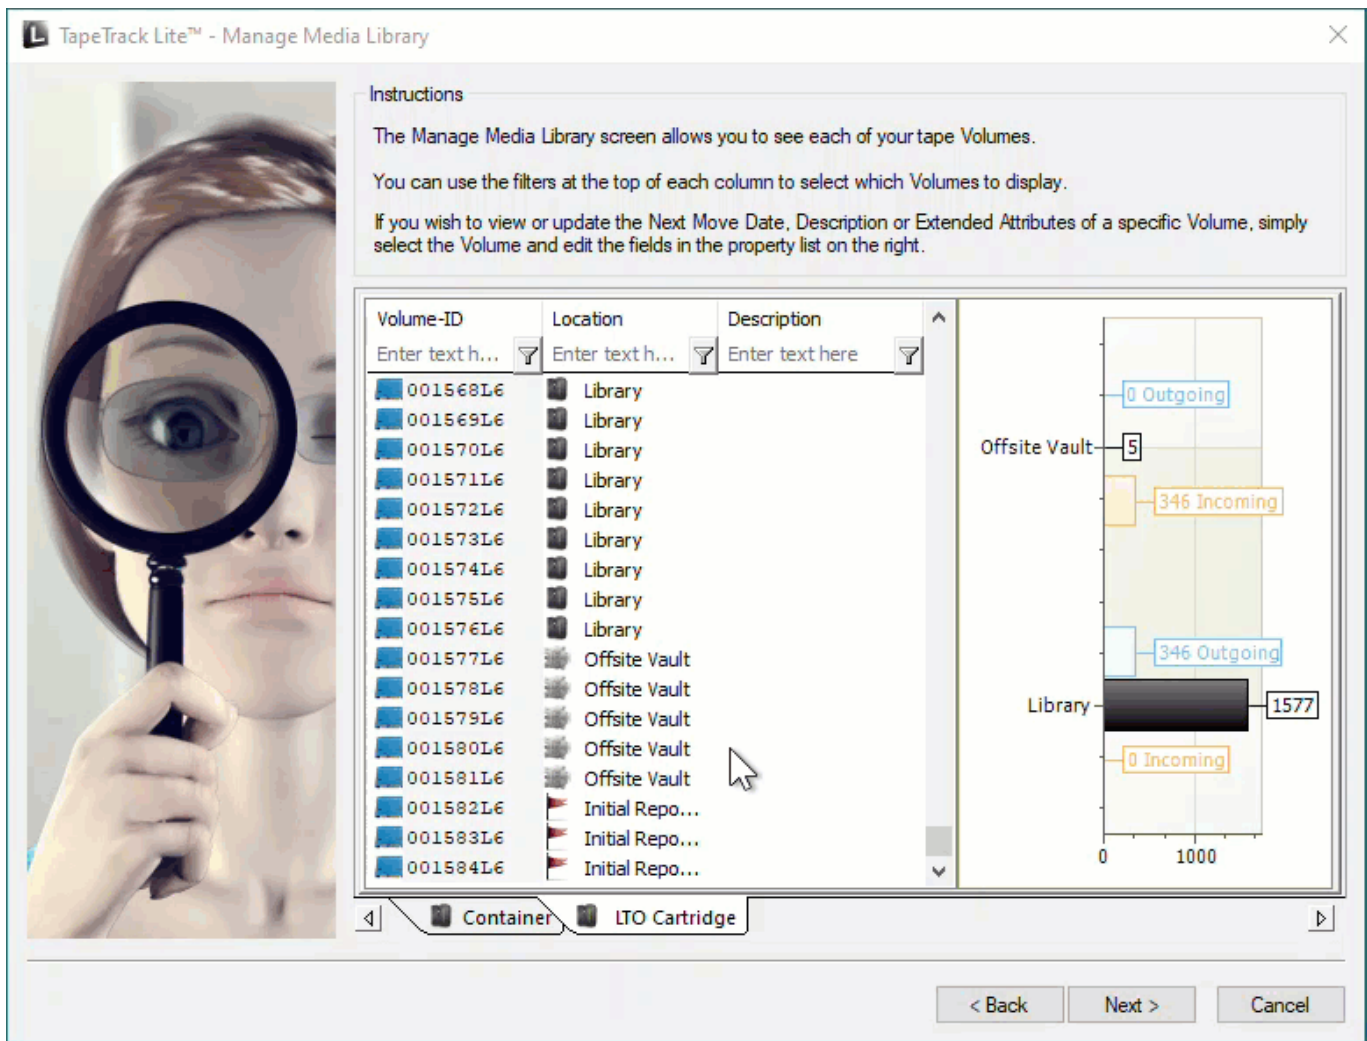

To add a Description select a Volume by clicking on the Volume-ID on the left side of the window.

Click in the field to the right of the Description field and insert the required description.

To add a Next Move Date, select the Volume (as with the description) and

- Click in the field to the right of the Next Move field to display the ellipses button.
- Click on the ellipses button to open the Next Move Date Selection window.
- Select the Automatically move Volume on the specified date checkbox to display the date options.
- Select the number of days, months and/or years until the Next Move Date required, or select a specific date from the calendar
- Click OK to close the date selection window.

Select any other Volumes you want to set a Move Date or Description for and set the required values.

Click Next to exit the Volume Management process.

## Complete

This will bring up the **Complete** window, from here you can:

- Click View Log File to view the log.
- Click Print Log File to print out the log file for further reference.
- Click About this Software to view product and support (email, phone & website) information.
- Click Back to return to start menu and select another task.
- Click Finish, Cancel or X to exit TapeTrack Lite.
