2025/12/01 03:37 1/1 Clearing The Database

Clearing The Database

By removing files from the TapeTrack Server Database, data can be removed by direct deletion of files.

Any errors in this process can result in a corrupt Database, do not make any alterations if you are not sure what you are doing or haven't created a current Database backup

What files need to be removed or deleted depends on the desired outcome.

Remove Volume Indexes Remove Volume History Remove Volumes Delete entire Database
