2025/12/01 07:23 1/1 Clearing The Database

Technote: Clearing The Database

By removing files from the TapeTrack Server Database, data can be removed by direct deletion of files.

Any errors in this process can result in a corrupt Database, do not make any alterations if you are not sure what you are doing or haven't created a current Database backup.

What files need to be removed or deleted depends on the desired outcome.

Remove Volume Indexes Remove Volume History Remove Volumes Delete entire Database
