

# Remove Slot Level Display In TapeMaster

## Modify the TapeMaster Configuration File

Locate the TapeMaster Configuration file (default location C:\Program Files\TapeTrack\TapeTrack TapeMaster\TMSSMaster.cfg) and open with Notepad or other plain text editor.

Locate the section **variables**

```
TMSSMaster.cfg - Notepad
File Edit Format View Help
options = {
  //
  // When exporting data to email send to the following addresses
  //
  email = [ "mailto1@tapetrack.com", "mailto2@tapetrack.com" ];

  /*
  variables = {
    TMSLEVELNAMES = "A,B,C";
  };
  */

  showparent = true;
};

defaults = {
```

Remove comment tags /\* & \*/ from above and below variables.

Change the line of code  
TMSLEVELNAMES = "A,B,C";  
to  
TMSNOLEVELSLOT = "true";

```
TMSSMaster.cfg - Notepad
File Edit Format View Help
options = {
  //
  // When exporting data to email send to the following addresses
  //
  email = [ "mailto1@tapetrack.com", "mailto2@tapetrack.com" ];

  variables = {
    TMSSNOLEVELSLOT = "true";
  };

  showparent = true;
};
defaults = {
```

and save file.

 Make sure that you have sufficient rights to save file to directory and to save as TMSS10Master.cfg and not as a text file or other file extension.

To check the modification was successful:

Login to TapeMaster and open slotted media to check display of volume location is now restricted to Zone and shelf as illustrated by the images below.

Before modification - TapeMaster displaying Zone, shelf and slot.

If when opening TapeTrack TapeMaster you receive an error - **Failed to read configuration file (TMSSMaster.cfg): Line( ) - Syntax error** check the configuration file that you have used plain ASCII quotes (" ") and not rich text quotes (" ") and that the replaced text is correct.
