

# TapeMaster Configuration File

To modify TapeMaster, open TMSSMaster.cfg in a plain text editor such as Notepad. TMSSMaster.cfg can be found in the TapeTrack/TapeMaster install directory (default C:\Program Files\TapeTrack\TapeTrack TapeMaster).

## Remove Slot Level Display

Locate the section **variables**

```
TMSSMaster.cfg - Notepad
File Edit Format View Help
options = {
  //
  // When exporting data to email send to the following addresses
  //
  email = [ "mailto1@tapetrack.com", "mailto2@tapetrack.com" ];

  /*
  variables = {
    TMSLEVELNAMES = "A,B,C";
  };
  */

  showparent = true;
};

defaults = {
```

Remove comment tags /\* & \*/ from above and below variables.

Change the line of code  
TMSLEVELNAMES = "A,B,C";  
to  
TMSNOLEVELSLOT = "true";

```
TMSSMaster.cfg - Notepad
File Edit Format View Help
options = {
  //
  // When exporting data to email send to the following addresses
  //
  email = [ "mailto1@tapetrack.com", "mailto2@tapetrack.com" ];

  variables = {
    TMSSNOLEVELSLOT = "true";
  };

  showparent = true;
};

defaults = {
```

and save file
