In the window that opens select all **Volumes** to add or update from the displayed list.

Select **Volumes** from the list by

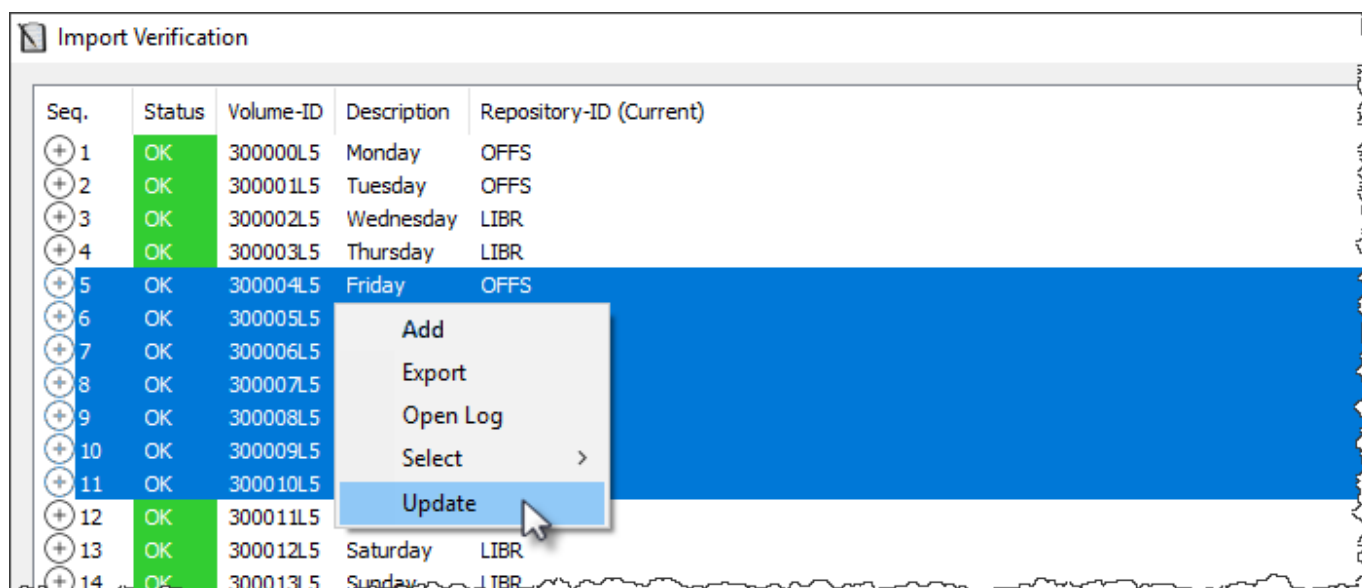

- left-click for a single **Volumes**.
- Shift + click to select a range of sequential **Volumes**.
- Control + click to select non sequential range.
- Right-click and from the menu select all.

Any new **Volumes** (not present in TapeTrack) will be highlighted by the **Volume-ID's** displayed in red.

These **Volumes** must be added to TapeTrack before any updates can be applied. To add the **Volumes**, once selected, right-click the **Volumes** and from the popup menu select Add. Once the **Volumes** have been added the **Volumes-ID's** will now display in black.

To update the **Volumes** Attributes (description, repository, next move etc.) select the required **Volumes**, right-click and select Update.

During the Add or Update phases you may see a popup showing you the progress of selected operation.

Once this has closed itself you may continue on with the next phase or close the import window if finished. Select X to close.
