

# Importing Volumes And Volume Data From Excel Spreadsheets

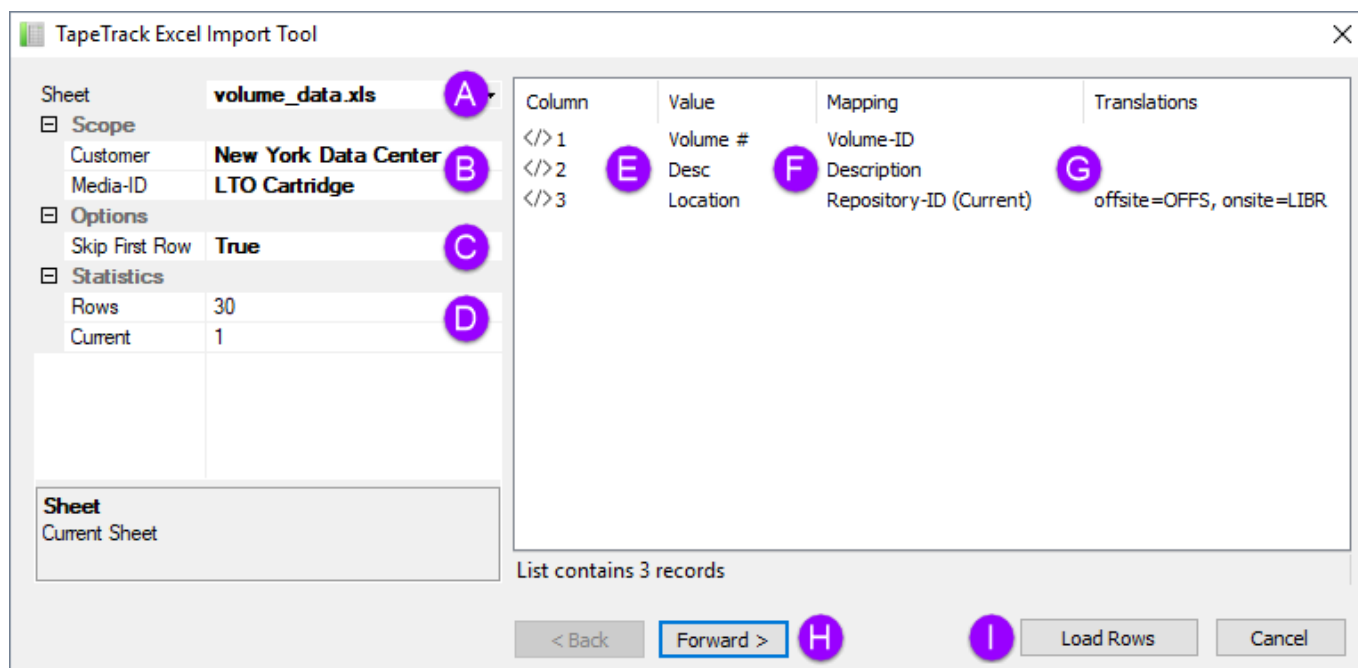

The Excel Import utility is invoked through [TapeMaster](#) or [Lite](#)

Select the Excel file to import the data from and then select Open.

In the TapeTrack Excel import tool:

- Select the [Customer](#) you wish to import the data into.
- Select the Excel sheet to import the data from.
- Select the [Media](#) type if the [Volumes](#) all belong to one [Media](#) type.
- Set Skip First Row to true if there are headings present.
- Map the Excel columns to the TapeTrack [Volume](#) Attributes.
- Insert any translations required to match the data to the correct format for TapeTrack.

13	OK	300012L5	Saturday	LIBR
14	OK	300013L5	Sunday	LIBR

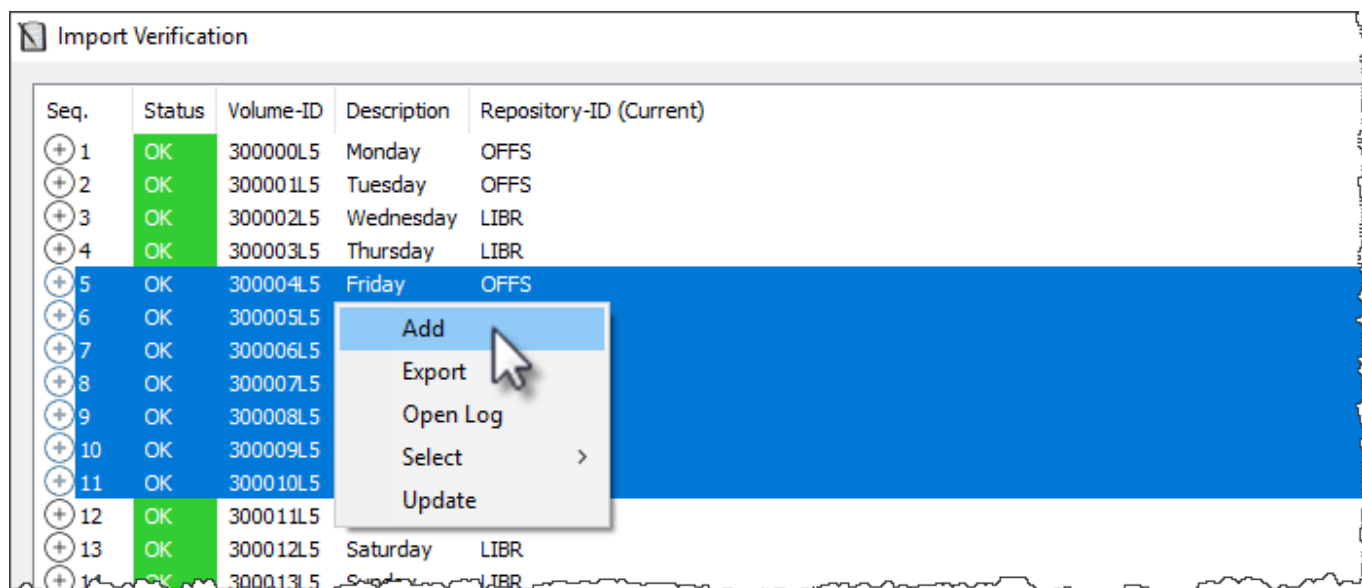

In the window that opens select all Volumes to add or update from the displayed list.

Select Volumes from the list by

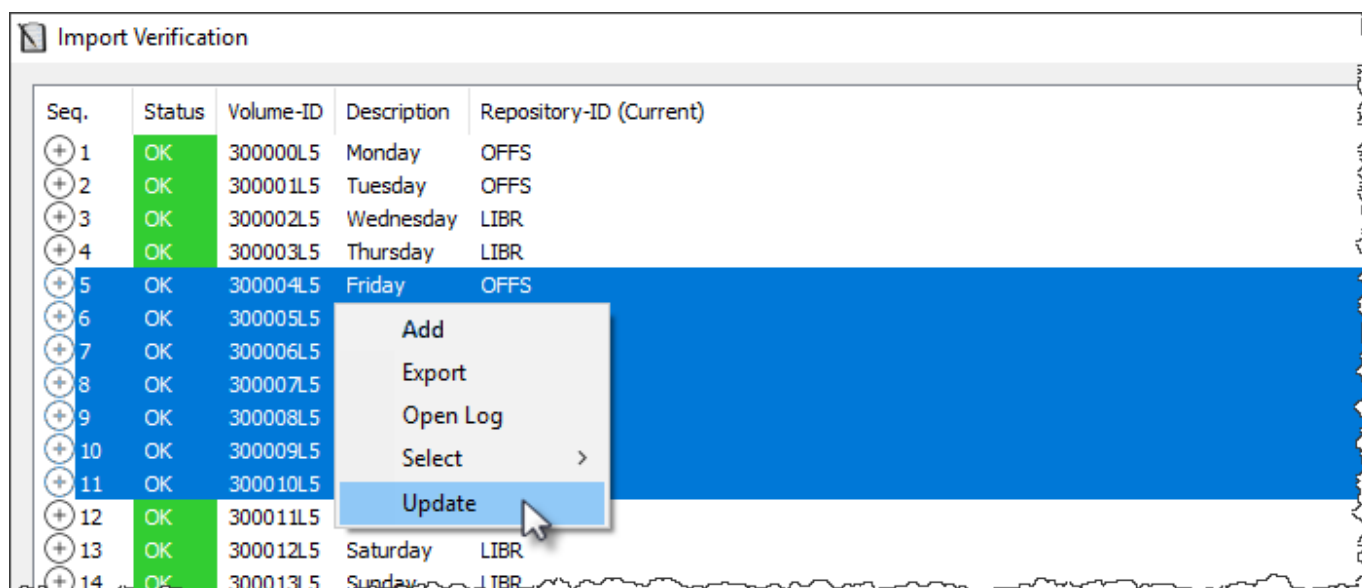

- left-click for a single Volumes.
- Shift + click to select a range of sequential Volumes.
- Control + click to select non sequential range.
- Right-click and from the menu select all.

Any new Volumes (not present in TapeTrack) will be highlighted by the Volume-ID's displayed in red.

These **Volumes** must be added to TapeTrack before any updates can be applied. To add the **Volumes**, once selected, right-click the **Volumes** and from the popup menu select Add. Once the **Volumes** have been added the **Volumes-ID's** will now display in black.

To update the **Volumes** Attributes (Description, **Repository**, next move etc.) select the required **Volumes**, right-click and select Update.

During the Add or Update phases you may see a popup showing you the progress of selected operation.

Once this has closed itself you may continue on with the next phase or close the import window if finished. Select X to close.
