

Excel Import - Container Table

Select Excel file by clicking in the Excel File field and clicking the more button (. .) to select the Excel file.

Select the required Excel sheet by clicking the Sheet field and then clicking on the drop box arrow and selecting from the presented options.

Set Reset Containers to:

- True : (Default) Purges containers contained in the Excel sheet before assigning volumes.
- False : leaves current volumes in the container and adds volumes in Excel sheet.

From the field Orientation select orientation of data in the Excel sheet:

- Horizontal : Containers listed in columns and assigned volumes in rows

	A	B	C	D	E	F	G	H	I	J	K
