

# Create Export File

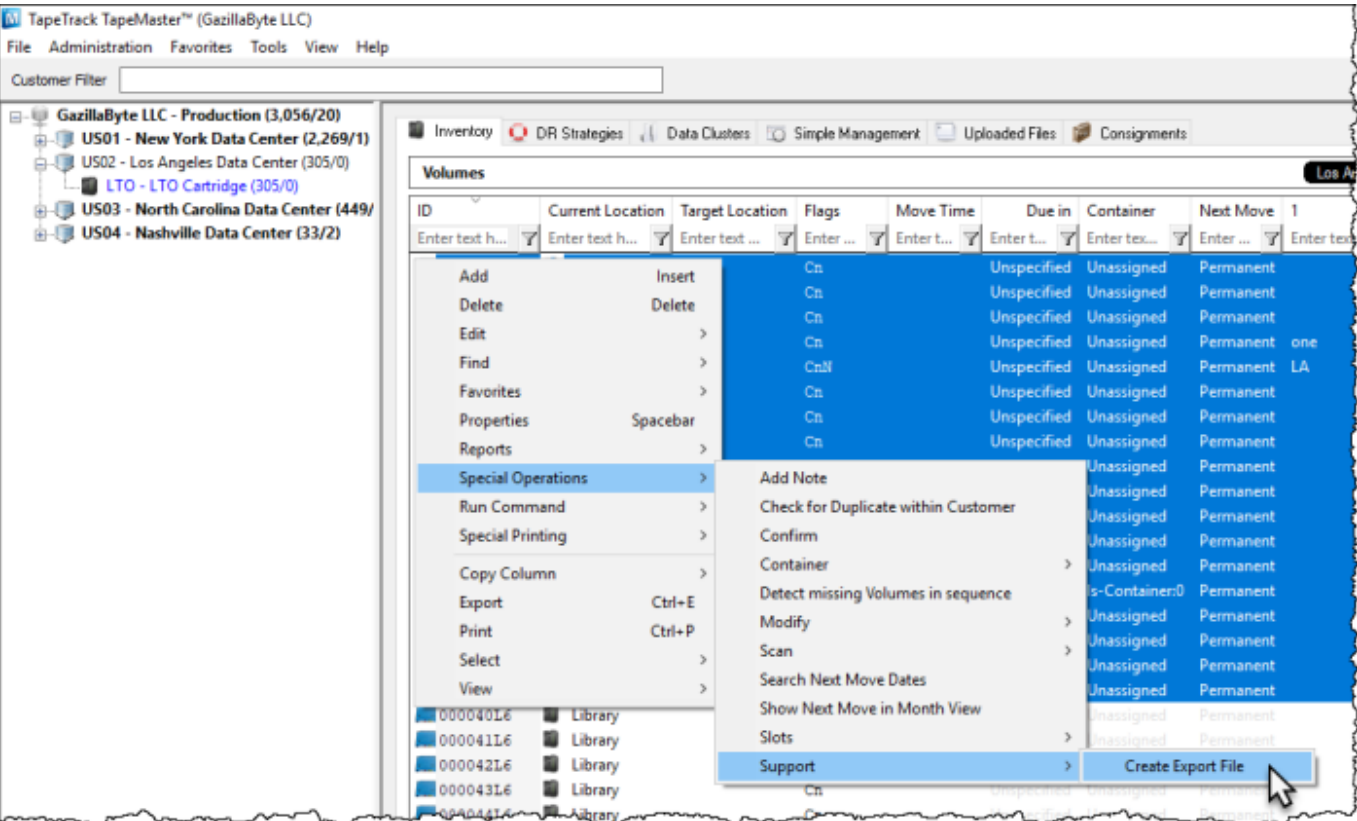

Creates an export file of selected volumes, including the volumes history, to assist the support desk to diagnose volume movement discrepancies.

## Selecting Volumes For Export

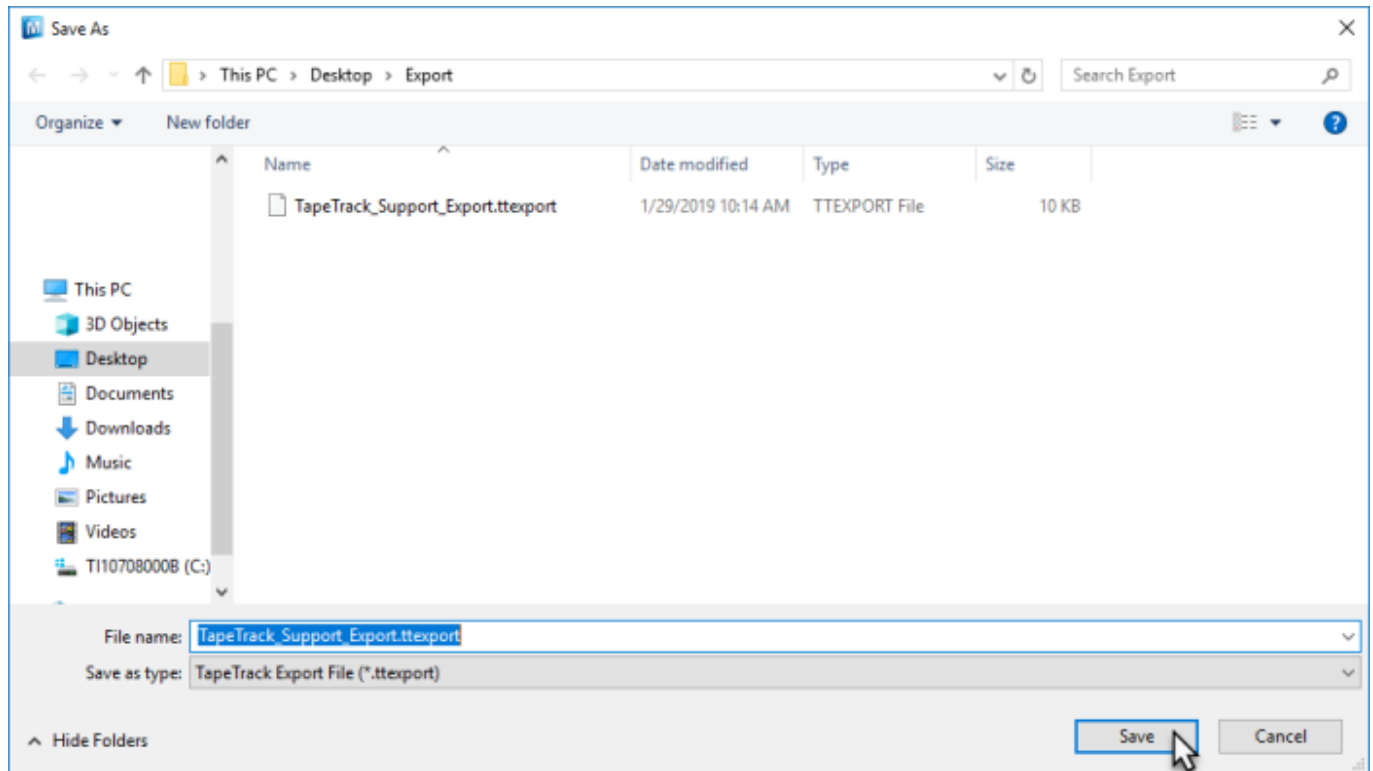

Select all volumes by right-clicking in the inventory window and select **Select→All**, or using shift+click and/or control+click select the range of volumes required.

## Exporting To File

Right click highlighted **Volumes** and select **Special Operations → Support → Create Export File**.

Save the file to a known location.

## Sending File To The Helpdesk

Send the file to the [TapeTrack Helpdesk](https://rtfm.tapetrack.com/technote/export_file?rev=1548718359) with details regarding the issue you are currently experiencing.
