

# Create Export File

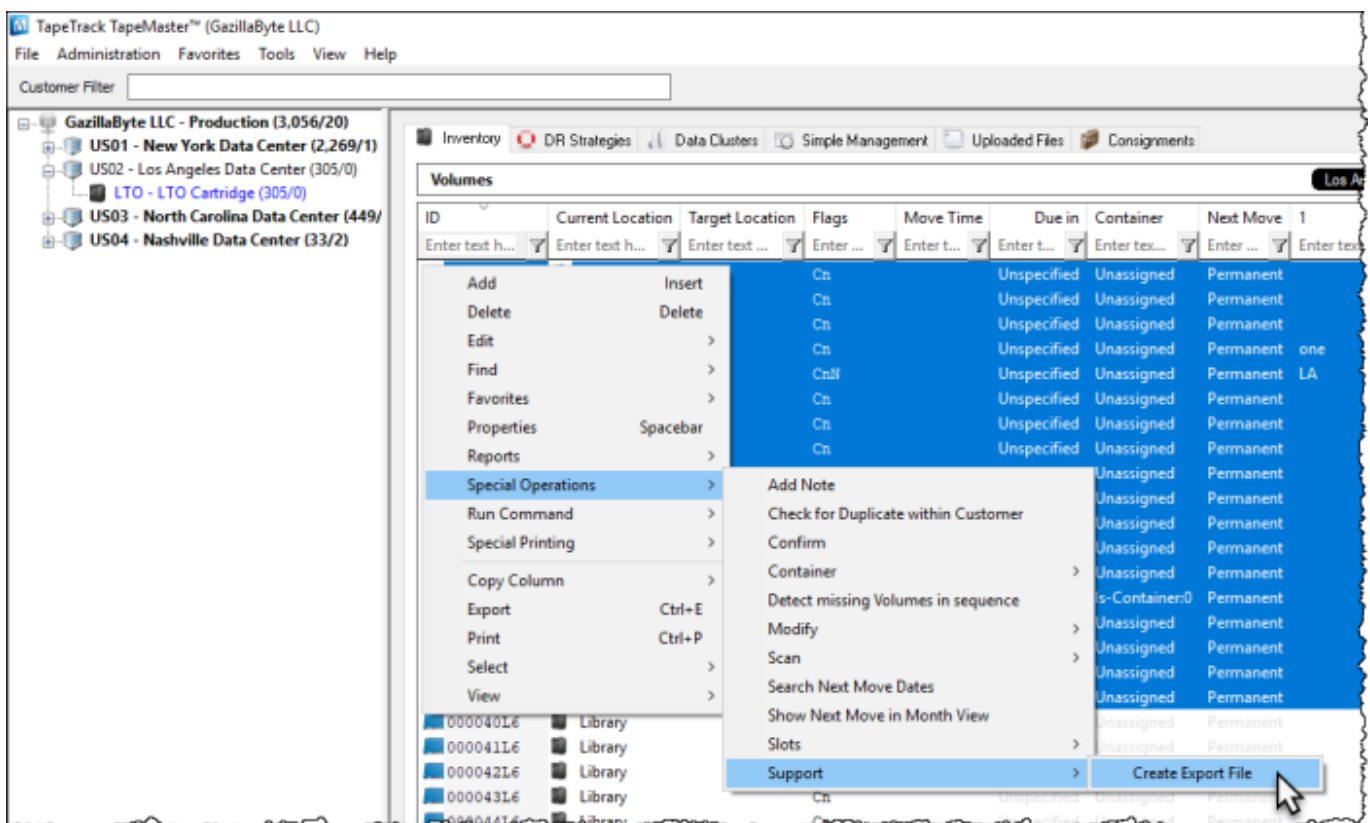

Creates an export file of selected volumes, including the volumes history, to assist the support desk to diagnose volume movement discrepancies.

## Selecting Volumes For Export

Select all volumes by right-clicking in the inventory window and select **Select→All**, or using **shift+click** and/or **control+click** select the range of volumes required.

## Exporting To File

Right click highlighted **Volumes** and select **Special Operations → Support → Create Export File**.

Save the file to a known location.

## Sending File To The Helpdesk

Send the file to the [TapeTrack Helpdesk](#) along with:

- [Customer-ID](#)
- [Media-ID](#)
- Details regarding the issue you are currently experiencing.

[technote](#), [export](#), [master export](#), [support](#)
