

Export License

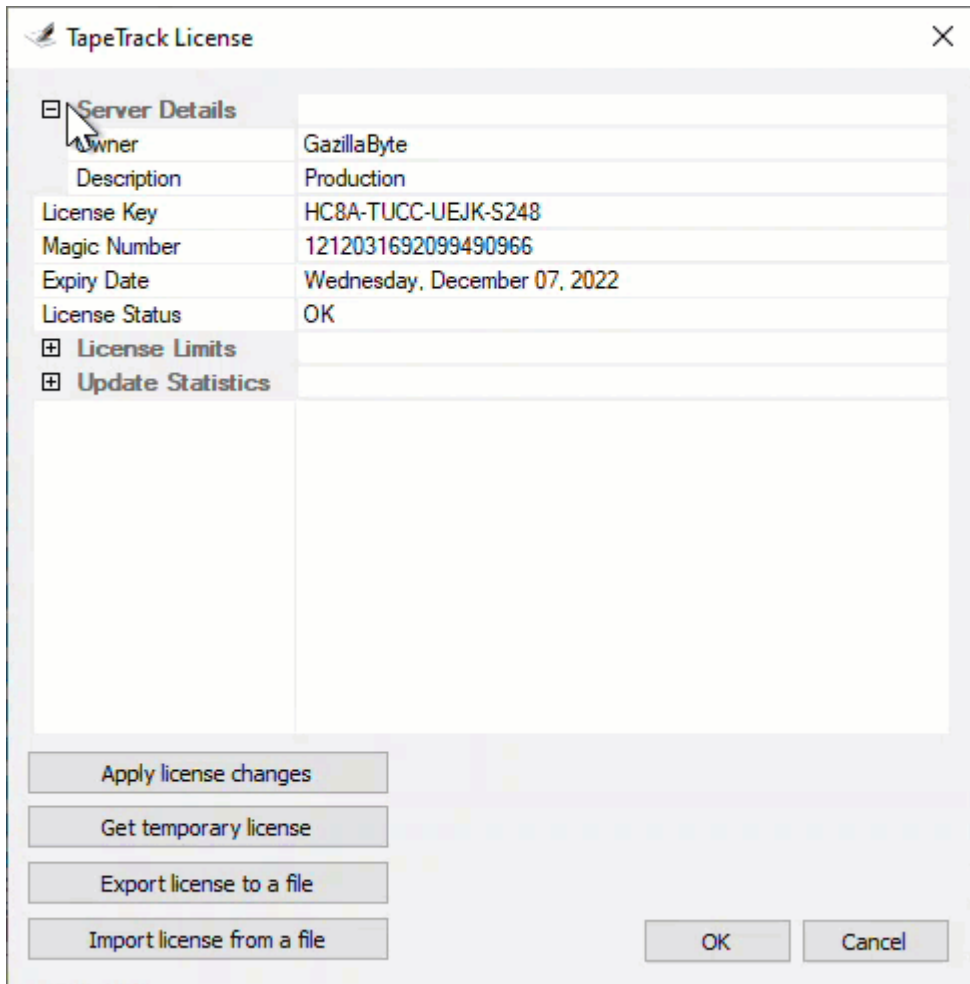

While logged into TapeMaster as [tapemaster](#), or [user-ID with tapemaster rights](#)

From the menu click Help → Framework Server Licensing to open the TapeTrack License window.

 If the menu option **Framework Server Licensing** is greyed out and inaccessible, you do not have sufficient privileges (tapemaster rights) to alter the software license

Click Export license to a file to open the Windows file save dialog.

Save the file with a descriptive name (e.g. current_license.cfg) in a suitable location. Ensure that the file saves with a file extension .cfg as some operating systems may default to .txt

[technote](#), [license](#), [export-license](#), [tapemaster](#)
