

Reports - Inventory

There are several ways to export the current status of Inventory from TapeTrack using:

- [TapeMaster](#)
- [Lite](#)
- [Command Line programs](#)

Which method suits your requirement depends on the information required in the report, as well as frequency the reports are required.

[TapeTrack TapeMaster](#) and [TapeTrack Lite](#) allow dynamic creation of Inventory reports that have variable output or on demand requirements.

Inventory reports that are required on a regular basis can be created using [TMSS10Inventory](#) that can then be saved to file, emailed and/or [uploaded to the TapeTrack Server](#) allowing clients to download ([TapeMaster](#), [TapeTrack Lite](#) or [TMSS10DownloadFile](#)) without the need to create the reports themselves.

Desktop Programs Inventory Reports

TapeMaster Inventory Reports

[TapeTrack TapeMaster](#) allows you to export to report one [Customer's Media Type](#) at a time via the Inventory window or all [Customers](#) and [Media Types](#) using the [Volume Global View](#) function.

Using the [Volume Global View](#) function has an added advantage of being able to dynamically filter the data using [Customer-ID](#), [Media-ID](#), [Volume-ID](#), [Location](#), [Flags](#), Move Dates, last User interaction and last Program Interaction before exporting results to a report.

Examples

TapeMaster Inventory Window Report

To export report from the TapeMaster Inventory window, select the required volumes, press Ctrl+E, or right-click and select Export. Select the required report format from the popup window and click OK.

```

System: TapeTrack
Report Description: Volume List
Report Notes: Nashville Data Center / LT0 Cartridge
Production Time: Thursday, March 14, 2019 - 09:45:40 (AUS Eastern Daylight Time)
Report Width: 119 bytes
ID          Current Location Target Location Flags  Move Time  Due in

```

Container	Next Move	Description			
000001L3	Offsite Vault		ChnN0		Unspecified
Unassigned	Permanent	Monthly April			
000001L5	L5 GemTrac		CnN		Unspecified

000003L5	Scratch Volumes		CnNZ		Unspecified
Unassigned	Permanent	Weekly			

TapeMaster Volume Global View Report

To export reports from the Volume Global View, from the main menu select Tools → Volume Global View. From the popup, if required, enter any filters (including extended Attribute) to narrow down the displayed results and click OK.

Select the required Volumes and press Ctrl+E, or right-click and select Export. Select the required report format (Text, HTML, PDF (Portrait or Landscape) or CSV) from the popup window and click OK.

Lite Inventory Reports

Lite's [Volume Management](#) function displays [Volumes](#) from the selected Customer's Media type.

Required [Volumes](#) can be selected by range clicking (Shift+Click and Ctrl+Click) or select all [Volumes](#) by right-clicking and Select → All.

Once the [Volumes](#) are selected, right-click and select Export (or Ctrl+E) to export Inventory to chosen file format.

```

                System: TapeTrack
Report Description: Export
Production Time: Thursday, March 14, 2019 - 09:45:40 (AUS Eastern
Daylight Time)
Report Width: 55 bytes

```

Volume-ID	Location	Description	Next move

000001L5	GemTrac		Permanent
000001L6	Offsite Vault		Permanent
000002L5	Offsite Vault		Permanent
000003L5	Scratch Volumes		Permanent

Command Line Inventory Reports

[TMSS10Inventory](#) produces an Inventory Report of all selected [Volumes](#).

The Inventory report can be output in two modes:

- Mode 1 (default) will produce a report with the values: Sequence, Barcode, Location, Repository, Next Move, Days, Last Move, GDup (Global Duplicate), CDup (Customer Duplicate) and Container.

- Mode 2 will produce a report with the values: Sequence, Customer, Media, Total and Moving total.

Reports can be output in the file formats text, HTML, JSON, PDF (Portrait or Landscape) and CSV.

Examples

TMSS10Inventory Mode 1

Command Line Input - Text File

```
TMSS10Inventory -S user:-password@server > report.txt
```

Text File Output

```

System: TapeTrack
Report Description: Inventory List
Report Notes: Customer(Nashville Data Center) Media Type(LT0
Cartridge)
Production Time: Wednesday, February 06, 2019 - 11:38:28 (AUS Eastern
Daylight Time)
Report Width: 195 bytes

```
