

# Technote Reports - Repositories

There are several ways to export the current status of Inventory from TapeTrack using:

- TapeMaster
- Lite
- Command Line programs

Which method suits your requirement depends on the information required in the report, as well as frequency the reports are required.

TapeMaster and Lite allows dynamic creation of Repository reports that have variable output or on demand requirements.

Repository reports that are required on a regular basis can be created using [TMSS10ListRepositories](#) that can then be saved to file, emailed and/or uploaded to the TapeTrack Server allowing clients to download (TapeMaster, Lite or [TMSS10DownloadFile](#)) without the need to create the reports themselves.

## Desktop Programs Repository Reports

### TapeMaster Repository Reports

TapeMaster allows you to export to report one Customer's Media type at a time via the Inventory window or all Customers and Media types using the [Volume Global View](#) function.

Using the [Volume Global View](#) function has an added advantage of being able to dynamically filter the data using Customer-ID, Media-ID, Volume-ID, Location, Flags, Move Dates, last User interaction and last Program Interaction before exporting results to a report.

### TapeMaster Inventory Window Repository Report

To export report from the TapeMaster Inventory window, filter the displayed [Volumes](#) by filtering the Current and/or Target Repository, Select the required volumes, right click highlighted volumes and press Ctrl+E, or right click and select Export. Select the required report format from the popup window and click OK.

```
System: TapeTrack
Report Description: Volume List
Report Notes: Nashville Data Center / LTO Cartridge
Production Time: Thursday, March 14, 2019 - 10:41:22 (AUS Eastern
Daylight Time)
Report Width: 107 bytes
```

ID	Current Location	Target Location	Flags	Move Time	Due in
Container	Next Move	Description			
000004L5	Library		CnN		Unspecified
	Unassigned	Permanent Friday Backup			
000005L5	Library		CnN		Unspecified
	Unassigned	Permanent Friday Backup			
000005L6	Library		CEhnN		Unspecified
	Unassigned	Permanent Monthly January			
000006L6	Library		CEhnN		Unspecified
	Unassigned	Permanent Weekly			
000009L5	Library		CEnNt		Unspecified
	Unassigned	Permanent Friday Backup			

### TapeMaster Volume Global View Repository Report

To export reports from the Volume Global View, from the main menu select Tools → Volume Global View. From the popup, if required, enter any filters (including extended Attribute) to narrow down the displayed results and click OK.

Filter the displayed Volumes using the Current and/or Target Repository columns.

Select the required Volumes and press Ctrl+E, or right click and select Export. Select the required report format from the popup window and click OK.

System: TapeTrack  
 Report Description: Export  
 Production Time: Thursday, March 14, 2019 - 10:37:48 (AUS Eastern Daylight Time)  
 Report Width: 214 bytes
