# **Technote Reports - Repositories**

There are several ways to export the current status of Inventory from TapeTrack using:

- TapeMaster
- Lite
- Command Line programs

Which method suits your requirement depends on the information required in the report, as well as frequency the reports are required.

TapeMaster and Lite allows dynamic creation of Repository reports that have variable output or on demand requirements.

Repository reports that are required on a regular basis can be created using TMSS10ListRepositories that can then be saved to file, emailed and/or uploaded to the TapeTrack Server allowing clients to download (TapeMaster, Lite or TMSS10DownloadFile) without the need to create the reports themselves.

# **Desktop Programs Repository Reports**

### **TapeMaster Repository Reports**

TapeMaster allows you to export to report one Customer's Media type at a time via the Inventory window or all Customers and Media types using the Volume Global View function.

Using the Volume Global View function has an added advantage of being able to dynamically filter the data using Customer-ID, Media-ID, Volume-ID, Location, Flags, Move Dates, last User interaction and last Program Interaction before exporting results to a report.

### **Examples**

#### **TapeMaster Inventory Window Repository Report**

To export report from the TapeMaster Inventory window, filter the displayed Volumes by filtering the Current and/or Target Repository, Select the required volumes, right click highlighted volumes and press Ctrl+E, or right click and select Export. Select the required report format (Text, HTML, PDF (Portrait or Landscape) or CSV) from the popup window and click OK.

System: TapeTrack
Report Description: Volume List

Report Notes: Nashville Data Center / LTO Cartridge

Production Time: Thursday, March 14, 2019 - 10:41:22 (AUS Eastern

Daylight Time) Report Width: 107 bytes		
ID Current Location Target Location Container Next Move Description	J	
000004L5 Library Unassigned Permanent Friday Backup	CnN	Unspecified
000005L5 Library	CnN	Unspecified
Unassigned Permanent Friday Backup 000005L6 Library Unassigned Permanent Monthly January	CEhnN	Unspecified
000006L6 Library Unassigned Permanent Weekly	CEhnN	Unspecified
000009L5 Library	CEnNt	Unspecified
Unassigned Permanent Friday Backup		

### **TapeMaster Volume Global View Repository Report**

To export reports from the Volume Global View, from the main menu select Tools → Volume Global View. From the popup, if required, enter any filters (including extended Attribute) to narrow down the displayed results and click OK.

Filter the displayed Volumes using the Current and/or Target Repository columns.

Select the required Volumes and press Ctrl+E, or right click and select Export. Select the required report format (Text, HTML, PDF (Portrait or Landscape) or CSV) from the popup window and click OK.
