

List Storage History Reports

Command Line Storage History Reports

TMSS10ListStorageHistory produces lists the storage history movements of Volumes for each Repository within a set date range.

Statistics included in the report include each Repository's:

- Repository levels including low, high and average number of Volumes.
- Number of Volumes moving into and out of the Repository.
- Location of where the Volumes moved from or to.

Examples

Command Line Input - Text File

```
TMSS10ListStorageHistory -S user:-password@server -R *:* > report.txt
```

Text File Output

```
