

# Technote Reports - Move List Examples

There are several ways to export the current moving {object:volume|Volumes}] from TapeTrack using:

- [TapeMaster](#)
- [Lite](#)
- [Command Line programs](#)

Which method suits your requirement depends on the information required in the report, as well as frequency the reports are required.

TapeMaster and Lite allows dynamic creation of move list reports that have variable output or on demand requirements.

Inventory reports that are required on a regular basis can be created using [TMSS10MoveList](#) that can then be saved to file, emailed and/or [uploaded to the TapeTrack Server](#) allowing clients to download ([TapeMaster](#), [Lite](#) or [TMSS10DownloadFile](#)) without the need to create the reports themselves.

## Desktop Programs Move List Reports

### TapeMaster Move List Reports

To export report from the TapeMaster Inventory window, filter the [Volumes](#) by placing a **M** in the Flag filter field, select the required [Volumes](#) from the displayed list, press Ctrl+E, or right click and select Export. Select the required report format from the popup window and click OK.

```

                System: TapeTrack
Report Description: Volume List
                Report Notes: Nashville Data Center / LT0 Cartridge
Production Time: Friday, March 15, 2019 - 10:32:46 (AUS Eastern Daylight
Time)
                Report Width: 110 bytes

ID           Current Location Target Location Flags      Move Time Due in
Container   Next Move Description
-----
000001L3 Offsite Vault      Library      ChMnN      H23:17:07 Unspecified
Unassigned Permanent Monthly April
000001L5 Offsite Vault      Library      CMnN       H23:17:07 Unspecified
Unassigned Permanent Friday Backup
000001L6 Library                Offsite Vault CMn         H23:16:56 Unspecified
Unassigned Permanent
000002L5 Offsite Vault      Library      CMnN       H21:43:32 Unspecified
Unassigned Permanent Weekly

```

## TapeMaster Volume Global View Move List Report

To export reports from the Volume Global View, from the main menu select Tools → Volume Global View. From the popup, if required, enter any filters (including extended Attribute) to narrow down the displayed results and click OK.

Place a **M** in the Flag filter field to narrow results to moving [Volumes](#).

Select the required [Volumes](#) and press Ctrl+E, or right click and select Export. Select the required report format (Text, HTML, PDF (Portrait or Landscape) or CSV) from the popup window and click OK.

## Command Line Inventory Reports

### Command Line Input - Text File

```
TMSS10TMSS10MoveList -S user:-password@server > report.txt
```

### Text File Output

[TMSS10MoveList](#) creates a report listing [Volumes](#) that are currently moving into or out of displayed [Repositories](#) and a total of moving [Volumes](#) for each [Repository](#).

```
