## Customize Report

Variable	Function
TMSSPDFCOLORHDR	Sets the color of the report heading
TMSSPDFLOGOPATH	Sets the path of the logo jpg image
TMSSREPORTTITLE	Sets the report title

```
set TMSSPDFCOLORHDR=FF0000
set TMSSPDFLOGOPATH=
set TMSSREPORTTITLE100=US01 Inventory
```

## Customize Columns

When outputting to PDF, as the report includes a lot of data, you may find columns overlap on the report.

The reason there is to many columns for the space available in a PDF format is because the report is customizable, the choice of which columns to include or discard is left to the client to decide rather than make the choice for you.

If all columns are required, outputting the report to text, CSV or EXCEL is advised.

Variable	Function
TMSSREPORTCOLUMNDELETE	Removes specified columns from the report
TMSSUNQUALIFIEDVOLUME
