# **Creating A PDF Report**

TapeTrack has many command line utilities to create reports and output them in different formats to cater for clients needs.

This page is to guide you on how to create a PDF report, using the utility TMSS10Inventory to demonstrate the process and variables available to customize the output.

Other report formats available

- Text
- CSV
- Excel
- HTML
- JSON

### **Ensure Server Utilities Are Installed**

Ensure TapeTrack Server Utilities are installed on the computer you want to run the report on.

Methods to check:

Open a command prompt and run the command TMSS10Inventory, the output will show the utility options starting with TMSS10Inventory © GazillaByte 1998-2020 if Server Utilities have been installed.

If the output shows TMSS10Inventory is not recognized as an internal or external command, operable program or batch file. you will need to install the Server Utility package, available for download here.

# **Select The Report Required**

Decide on the report required.

In this example we are using TMSS10Inventory, for other report utilities available see Server Utilities - Reports

### **Create Batch File**

Create a batch file in the desired location and name it with a descriptive name, eg C:\tapetrack\_reports\run\_InventoryReport.bat

## **Coding The Report**

Open the batch file in Notepad or other plain text editor.

### **Report Variables**

Variables set different parameters relating to how the report is configured and what output gets written to or dropped from the report.

Variable	Function
TMSSREPORTFORMAT	Sets the report output to PDF
TMSSPDFORIENTATION	Sets the orientation of the report, options are landscape or portrait
TMSSPDFPAGESIZE	Sets the page size, options are letter, legal or A4
TMSSPDFOUTPUTPATH	Sets the output directory and file name

Batch file code example:

set TMSSREPORTFORMAT=PDF

- set TMSSPDFORIENTATION=landscape
- set TMSSPDFPAGESIZE=letter
- set TMSSPDF0UTPUTPATH=./Inventory\_Report\_US01.pdf

#### **Customize Columns**

When outputting to PDF, as the report includes a lot of data, you may find columns overlap on the report.

The reason there is to many columns for the space available in a PDF format is because the report is customizable, the choice of which columns to include or discard is left to the client to decide rather that make the choice for you.

If all columns are required, outputting the report to text, CSV or EXCEL is advised.

Variable	Function
TMSSREPORTCOLUMNDELETE	Removes specified columns from the report
TMSSUNQUALIFIEDVOLUME
