2025/12/01 07:03 1/2 Creating Reports

# **Technote: Creating Reports**

TapeTrack can produce reports two ways, through Desktop and Command Line programs.

## **Desktop Programs**

Reports can be created through the Desktop programs by selecting and filtering data and then exporting to a report.

This allows a quick and efficient creation of reports on demand.

Reports based over multiple Customer-ID's or Media-ID's can be produced through the Volume Global View function, of which results can be filtered down to required data and then exported to file.

When reporting on individual Media-ID's, the reports from the inventory window provide far more extensive options

## **Command Line Programs**

Reports that are required on a regular basis can be created using various command line programs that can then be saved to file, emailed and/or uploaded to the TapeTrack Server allowing clients to download without the need to create the reports themselves.

#### **Report Output Options**

Both the Desktop and Command L Programs can produce reports in the following formats:

- Text
- HTML
- PDF
- CSV

### **Command Line Reports**

Report	Description	
Inventory Report	Lists all Volumes in inventory that matches the supplied filters	
Move List		
Users List		
Repositories	Listing of all Repositories including capacity, usage, and number of moving Volumes	
Zone List	Format 1: Lists current zones, assigned Customer-ID, occupying Media type and Volume ID by slot number	

Last update:	2025/01	121	22:0	7

Report	Description
I .	Format 2: Lists current zones, assigned Customer-ID, occupying Media type, assigned Repository-ID and Zone description
Storage History List	Lists daily Volume quantity in each repository including how many Volumes moved in and out of the repository
