

Setting Environmental Variables

The default behaviour of TapeTrack programs can be changed by setting environmental variables.

These variables can be set using the following methods.

Windows Command Line

```
C:\Users\gnicol.GAZILLABYTE>help set  
Displays, sets, or removes cmd.exe environment variables.
```

```
SET [variable=[string]]
```

```
variable Specifies the environment-variable name.
```

```
string Specifies a series of characters to assign to the variable.
```

Linux Shell

TapeTrack Config File
